PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **large-scale distributed Java Spring Boot services** handling millions of requests, implementing **REST APIs** and microservices architecture while ensuring **99.9% uptime SLA** through proactive monitoring with **Splunk, CloudWatch, and Dynatrace**
- Designed and optimized **data pipelines and ETL workflows** using **Python** with **pandas and NumPy**, processing terabytes of enterprise data for analytics and reporting; automated **10+ scheduled jobs** reducing manual overhead by **40%**
- Built and debugged complex systems across **AWS infrastructure (EC2, S3, Lambda, CloudWatch)** and **containerized applications with Docker**, diagnosing and resolving **P1/P2 production incidents** with root-cause analysis and permanent fixes
- Architected **CI/CD pipelines using Jenkins** with **Git** branching strategies, conducted rigorous **code reviews** across distributed teams, and maintained high code quality standards through peer feedback and best practice enforcement
- Performed **SQL optimization and schema design** across **PostgreSQL, MySQL, and Oracle databases**, executing ad-hoc queries for data validation and supporting infrastructure scaling decisions with performance metrics
- Led technical design reviews and triaged system issues by analyzing hardware, network, and service impact; documented system behavior and contributed to runbooks and technical documentation for operational excellence

SKILLS

Programming Languages – Java, Python, SQL, C++ (learning).

Backend & Distributed Systems – Spring Boot, REST APIs, microservices, distributed computing, large-scale infrastructure.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Jenkins, Git.

Data Engineering – ETL pipelines, data validation, pandas, NumPy, PostgreSQL, MySQL, Oracle.

Observability & Reliability – Splunk, Dynatrace, SLA management, incident response, system debugging.

Full-Stack & Additional Technologies – Flask, FastAPI, React, Angular, Jira, Agile/Scrum.

Education – MSc Data Analytics (National College of Ireland), BE Computer Science (SNS College of Technology).

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Application Reliability & Monitoring (HCL Technologies)

- Owned production support and **distributed system monitoring** for mission-critical enterprise **Java and .NET applications** serving multiple Fortune 500 clients, managing **SLA compliance** and orchestrating **incident response** across global teams
- Implemented comprehensive monitoring dashboards and alerting logic using **Splunk, CloudWatch, and Dynatrace**, enabling **real-time visibility** into system health and reducing **MTTR by 35%** through automated escalation workflows
- Debugged complex issues in **large-scale infrastructure** by analyzing logs, metrics, and traces; conducted root-cause analysis and deployed permanent fixes, improving system reliability and reducing recurring incidents by **50%**

Data Pipeline & Automation Engineering (HCL Technologies)

- Architected and deployed **ETL data pipelines** processing enterprise data using **Python, SQL, and AWS Lambda**, supporting analytics platforms and business intelligence tools with automated daily ingestion and transformation
- Optimized **database queries and schema design** across **PostgreSQL, MySQL, and Oracle**, reducing query execution time by **45%** and enabling efficient data validation for regulatory compliance and reporting
- Built **CI/CD infrastructure** with **Jenkins and Git**, streamlined deployment processes, and conducted code reviews across **Docker containerized microservices**, ensuring consistency and reliability across development and production environments

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
