+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **REST APIs** and microservices using **Java Spring Boot**, contributing to large-scale enterprise systems serving millions of requests; optimized query performance and reduced latency through **SQL** tuning and caching strategies.
- Led **production support and incident response** for critical enterprise applications using **Splunk, CloudWatch, and Dynatrace**; managed P1/P2 incidents with focus on system reliability, achieving **99.5% SLA compliance** and minimizing downtime impact.
- Architected and deployed containerized applications using **Docker** and orchestrated infrastructure on **AWS (EC2, S3, Lambda, CloudWatch)**; automated deployment pipelines with **Jenkins** and Git, reducing release cycle time by **30%**.
- Developed **Python**-based automation scripts and **ETL data pipelines** for real-time data processing and scheduled reporting; leveraged **pandas and NumPy** for data validation and transformation across multiple databases (**PostgreSQL, MySQL, Oracle**).
- Performed root-cause analysis and debugging of distributed system issues by analyzing logs, metrics, and network traces; proposed and implemented performance optimizations that improved system throughput and reduced resource consumption.
- Collaborated in code reviews, design discussions, and Agile ceremonies; maintained system documentation and best practices for scalability, testability, and reliability across full-stack development workflows.

SKILLS

Languages & Frameworks – Java, Python, Spring Boot, REST APIs, Flask, FastAPI.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Git, Jenkins.

Databases & Data Engineering – PostgreSQL, MySQL, Oracle, SQL, pandas, NumPy, ETL pipelines.

Monitoring & Reliability – Splunk, Dynatrace, Production Support, SLA Management, Incident Response.

Frontend – Angular, React.

Tools & Practices – Jira, Confluence, Agile/Scrum, Code Review, CI/CD.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Reliability Engineering (HCL Technologies)

- Owned production support for mission-critical **Java/.NET applications** across distributed infrastructure; utilized **Splunk, CloudWatch, and Dynatrace** for real-time monitoring and alerting, reducing mean time to

resolution (MTTR) by **40%**.

- Implemented **Python automation scripts** to detect anomalies, generate alerts, and trigger automated remediation workflows; decreased manual incident investigation time and improved overall system uptime.
- Conducted root-cause analysis of critical incidents involving **AWS infrastructure, database performance, and application logs**; documented findings and led post-incident reviews to prevent recurrence.

Microservices Development & Data Pipeline Automation (HCL Technologies)

- Designed and developed **Spring Boot microservices** with **REST APIs** for distributed system architecture; implemented comprehensive unit and integration tests to ensure code quality and reliability.
- Built end-to-end **ETL data pipelines** using **Python, pandas, and SQL** to ingest, transform, and load data from multiple sources; automated scheduled reporting with **cron jobs** and **Jenkins CI/CD pipelines**, reducing manual effort by **50%**.
- Containerized applications with **Docker** and deployed to **AWS (EC2, S3, Lambda)**; optimized **CloudWatch metrics** collection and implemented cost-saving strategies through Lambda automation and serverless architecture.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
