PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Owned **P1/P2 incident response and SLA management** for mission-critical enterprise Java/.NET applications across production environments, using **Splunk, CloudWatch, and Dynatrace** for real-time monitoring and rapid troubleshooting—demonstrating crisis response capability and customer-centric support.
- Developed **Python automation scripts** for data pipelines, ETL workflows, and scheduled reporting; built **REST APIs** using **Java Spring Boot** on existing services, contributing to system reliability and reducing manual operational overhead.
- Troubleshoot complex infrastructure issues across **AWS** (EC2, S3, Lambda, CloudWatch) and containerized environments using **Docker**; performed **Linux log analysis**, shell scripting, and system-level diagnostics to identify root causes and prevent recurrence.
- Implemented and maintained **CI/CD pipelines** in **Jenkins** with **Git** workflows; conducted code reviews and managed defect tracking via **Jira**, ensuring code quality and compliance with Agile/Scrum delivery standards.
- Executed complex **SQL queries** across **PostgreSQL, MySQL, and Oracle** databases for data validation, schema optimization, and ad-hoc analysis—supporting incident diagnosis and performance tuning of database-dependent systems.
- Completed **MSc in Data Analytics** (Feb 2026) and earned certifications in **Full Stack Java Spring Boot & Angular** and **Web Development**, complementing 3.5 years of hands-on production support and software development experience.

SKILLS

Programming & Scripting – Python, Java, SQL, Bash/Shell scripting, REST API development.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux system administration.

Monitoring & Troubleshooting – Splunk, Dynatrace, CloudWatch, production support, incident response, log analysis.

Databases – PostgreSQL, MySQL, Oracle, data validation, schema management.

DevOps & CI/CD – Jenkins, Git, Jira, Confluence, Agile/Scrum methodologies.

Frameworks & Tools – Spring Boot, Flask, FastAPI, pandas, NumPy.

Certifications & Education – MSc Data Analytics, BE Computer Science, IELTS Band 7, Full Stack Java Spring Boot & Angular, Coursera (Python, Web Development).

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Production Support & Reliability (HCL Technologies)

- Managed real-time monitoring and incident response for mission-critical enterprise applications using **Splunk, CloudWatch, and Dynatrace**; maintained SLAs for P1/P2 incidents through rapid triage, root-cause analysis, and escalation management.
- Developed **Python automation scripts** to reduce manual troubleshooting overhead and improve incident detection accuracy; created data validation pipelines and ETL workflows for operational reporting.
- Performed **Linux log analysis, shell scripting, and system diagnostics** to isolate infrastructure issues; debugged performance bottlenecks in containerized **Docker** environments across **AWS** infrastructure.

REST API Development & Database Optimization (HCL Technologies)

- Built and maintained **REST APIs** using **Java Spring Boot** for microservice-based systems; implemented feature enhancements and bug fixes while ensuring backward compatibility and code quality.
- Optimized **SQL queries** across **PostgreSQL, MySQL, and Oracle** databases; performed schema analysis and ad-hoc data validation to support application performance tuning and incident diagnosis.
- Established **CI/CD pipelines** in **Jenkins** with **Git** branching strategies and code review processes; managed deployments and defect tracking via **Jira** in Agile/Scrum delivery cycles.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
