PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Diagnosed and resolved **P1/P2 production incidents** across enterprise **Java/.NET applications** using **Splunk, CloudWatch, and Dynatrace**, maintaining **99.5% SLA** compliance and reducing mean time to resolution by **30%**.
- Designed and deployed **Python automation scripts** for **ETL data pipelines** and scheduled reporting, eliminating manual workflows and improving operational efficiency across **3+ backend systems** with interdependencies.
- Developed **REST APIs** and backend features using **Java Spring Boot**, including full life-cycle ownership from design through deployment via **Jenkins CI/CD pipelines** and **Git** version control.
- Troubleshoot complex infrastructure and application issues in **AWS** environments (**EC2, S3, Lambda, CloudWatch**), leveraging **Linux shell scripting** and **SQL** query analysis to identify root causes and drive long-term improvements.
- Created **standardized technical playbooks** and runbooks for common incident patterns, enabling support teams to manage and resolve issues autonomously while reducing escalations by **40%**.
- Partnered with cross-functional teams on **Docker containerization** initiatives and infrastructure automation, delivering solutions that improved deployment reliability and supported data center operational excellence.

SKILLS

Backend & Systems – Java Spring Boot, Python, REST APIs, Shell scripting, Linux administration.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, CI/CD (Jenkins, Git).

Data Engineering & Automation – SQL (PostgreSQL, MySQL, Oracle), ETL pipelines, pandas, NumPy, data validation.

Observability & Reliability – Splunk, Dynatrace, monitoring, SLA management, incident response.

Tools & Processes – Jira, Confluence, Agile/Scrum, code review, defect tracking.

Education – MSc Data Analytics (National College of Ireland), Backend and Full Stack certifications.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Application Observability & Incident Response Framework (HCL Technologies)

- Architected centralized monitoring and alerting system using **Splunk and CloudWatch** across **15+ enterprise Java and .NET services**, enabling real-time diagnostics of data center workflow execution blockers.

- Developed **Python-based automation playbooks** that automated triage and root cause identification for recurring issues, reducing incident resolution time from **4 hours to 45 minutes** and improving team autonomy.
- Created standardized technical documentation and runbooks used by **20+ support engineers** to independently manage production issues, directly supporting SLA targets and operational excellence initiatives.

Data Pipeline & Operational Reporting Automation (HCL Technologies)

- Engineered end-to-end **ETL data pipelines** using **Python, pandas, and PostgreSQL** to ingest, validate, and transform operational metrics from **multiple backend systems** into a centralized data warehouse.
- Designed and deployed **scheduled reporting framework** via **Linux cron jobs** that automated generation of capacity utilization and cost-efficiency reports, eliminating **8 hours/week** of manual data processing.
- Implemented **Docker containerization** for pipeline infrastructure, improving deployment consistency and enabling seamless scaling across data center environments while reducing operational overhead.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
