PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and executed **data pipelines** and **ETL workflows** using **Python** to validate and interpret enterprise datasets, supporting decision-making across technical and business teams; translated raw data into actionable insights for stakeholder presentations.
- Managed production reliability and system health for mission-critical **Java Spring Boot** applications using **Splunk, CloudWatch, and Dynatrace**, achieving **99.5% SLA compliance** and reducing P1 incident response time by coordinating cross-functional incident resolution.
- Developed **REST APIs** and feature implementations in **Spring Boot** with rigorous code review and **CI/CD** governance via **Jenkins** pipelines, ensuring code quality and regulatory-grade documentation standards in enterprise environments.
- Performed complex **SQL** analysis across **PostgreSQL, MySQL, and Oracle** databases to validate data integrity, execute schema changes, and support bioanalytical study planning; translated technical requirements into executable queries for stakeholder reporting.
- Deployed and orchestrated containerized applications using **Docker** and managed infrastructure automation on **AWS (EC2, S3, Lambda, CloudWatch)**, reducing operational overhead and enabling scalable data processing workflows.
- Led scientific and technical documentation efforts with cross-functional teams, translating complex system behavior and study results into clear internal and external communications; demonstrated expertise in bridging technical and non-technical audiences.

SKILLS

Data Engineering & Analysis – Python, pandas, NumPy, ETL pipelines, SQL, data validation, PostgreSQL, MySQL, Oracle.

Backend Development – Java, Spring Boot, REST APIs, FastAPI, Flask.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, CI/CD, Git.

Monitoring & Reliability – Splunk, Dynatrace, CloudWatch, production support, SLA management.

Linux & Automation – Linux administration, shell scripting, cron scheduling, log analysis.

Scientific & Technical Communication – Jira, Confluence, stakeholder reporting, technical documentation.

Education – MSc Data Analytics (National College of Ireland), BE Computer Science (SNS College of Technology).

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Data Pipeline & Bioanalytical Support (HCL Technologies)

- Architected and deployed **Python-based ETL pipelines** to ingest, transform, and validate large-scale bioanalytical datasets from multiple sources, ensuring data integrity for downstream analysis and regulatory compliance.
- Integrated **Splunk** monitoring to track pipeline health and performance metrics, enabling real-time alerting and reducing data validation cycles by **40%**.
- Collaborated with discovery and quality teams to design **SQL schemas** and implement automated validation routines, supporting biomarker study data aggregation and reporting for stakeholder review.

Production Reliability & Clinical Support Systems (HCL Technologies)

- Established **Spring Boot**-based application health monitoring using **CloudWatch and Dynatrace**, reducing mean time to resolution (MTTR) for critical incidents from **4 hours to 45 minutes**.
- Designed **automated incident response workflows** via **Jenkins CI/CD pipelines** to rapidly deploy fixes and validation patches, maintaining **99.5% uptime** for regulatory-grade systems.
- Implemented **Docker containerization** for microservices and deployed on **AWS infrastructure** (EC2, S3, Lambda), enabling scalable infrastructure for preclinical and clinical support applications while reducing operational costs by **30%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
