

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **3.5 years of production support** across enterprise Java/.NET applications, demonstrating reliability, attention to detail, and ability to respond to critical P1/P2 incidents under pressure—key qualities for field installation and commissioning work.
- Developed proficiency with **Linux, shell scripting, and command-line tools** for system diagnostics and troubleshooting; applied same methodical problem-solving approach to fault-finding and testing on live systems.
- Worked extensively with **AWS infrastructure (EC2, S3, Lambda), Docker containerisation, and CI/CD pipelines**, gaining hands-on experience with technical systems, networking concepts, and the importance of clean, organised configurations—directly transferable to rack room management and headend setup.
- Executed **Python automation scripts and ETL workflows** to streamline repetitive tasks and improve operational efficiency; comfortable learning new technical tools and systems quickly, essential for mastering HAS Integration's diverse product portfolio.
- Collaborated closely with **cross-functional teams (Project Managers, QA, Senior Engineers)** through Agile ceremonies and code reviews, demonstrating strong communication, professionalism, and ability to work reliably on client-facing deliverables.
- Currently completing **MSc in Data Analytics** while maintaining a track record of punctuality and professional commitment; holds **Stamp 1G visa status** (eligible for full-time work in Ireland) and possesses strong foundational technical knowledge across systems, networking, and infrastructure.

SKILLS

Systems & Infrastructure – Linux, AWS (EC2, S3, Lambda, CloudWatch), Docker, networking fundamentals.

Troubleshooting & Support – Production support, P1/P2 incident response, fault-finding, system diagnostics, SLA management.

Technical Installation & Configuration – CI/CD pipelines, Git, Jenkins, equipment setup, system commissioning.

Programming & Scripting – Python, Java, SQL, shell scripting, REST APIs.

Professional Practices – Jira, Confluence, Agile/Scrum, technical documentation, site-based collaboration.

Monitoring & Testing – Splunk, Dynatrace, CloudWatch, basic testing and validation protocols.

Certifications & Education – MSc Data Analytics (National College of Ireland), BE Computer Science, Full Stack Java Spring Boot & Angular, IELTS Band 7.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Managed **real-time production monitoring** using **Splunk, Dynatrace, and CloudWatch** across multi-tier Java/.NET systems, responding to critical incidents with accuracy and urgency.
- Performed **systematic fault-finding and diagnostics** on live production environments, isolating root causes through log analysis and metric review—methodical approach directly applicable to field troubleshooting.
- Maintained detailed incident documentation and collaborated with senior engineers on resolution, demonstrating reliability and professional communication essential for site-based technical work.

Infrastructure Automation & System Configuration (HCL Technologies)

- Designed and deployed **Python automation scripts** for data pipelines, scheduled reporting, and infrastructure tasks, reducing manual effort and improving operational cleanliness.
- Worked with **AWS infrastructure (EC2, S3, Lambda), Docker containerisation, and Jenkins CI/CD pipelines**, gaining practical experience in system setup, configuration management, and organised technical environments.
- Applied **Linux shell scripting, cron jobs, and command-line diagnostics** to streamline deployments and system health checks, developing hands-on technical proficiency applicable to equipment installation and commissioning workflows.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
