+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **data pipelines** and **ETL workflows** using **Python**, **pandas**, and **SQL** to process, validate, and transform clinical and enterprise data for analysis and reporting, ensuring data integrity across multiple sources.
- Built **REST APIs** and backend services using **Java Spring Boot**, collaborating with cross-functional teams to translate business and analytical requirements into robust, production-ready implementations.
- Performed statistical analysis and ad-hoc **data validation** using **SQL** (PostgreSQL, MySQL, Oracle) and **Python** libraries (**NumPy**, **pandas**), identifying data quality issues and generating insights for stakeholder reporting.
- Ensured **data compliance** and system reliability through production monitoring using **Splunk**, **CloudWatch**, and **Dynatrace**; managed P1/P2 incidents and maintained SLA targets, demonstrating attention to detail critical for regulated environments.
- Automated repetitive analytical and operational tasks using **Python scripting**, **shell scripting**, and **cron jobs**, reducing manual effort and improving team productivity in data preparation and scheduled reporting workflows.
- Collaborated with biostatisticians and technical teams in **Agile/Scrum** environments, utilizing **Jira** and **Confluence** for requirements gathering, code reviews, and knowledge sharing to deliver accurate analytical solutions.

SKILLS

Statistical Programming & Data Analysis – Python, SQL, pandas, NumPy, data validation, ETL, ad-hoc analysis.

Backend Development – Java, Spring Boot, REST APIs, Flask, FastAPI.

Databases – PostgreSQL, MySQL, Oracle, schema design, data integrity.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD pipelines.

Monitoring & Compliance – Splunk, Dynatrace, production support, incident management, SLA tracking.

Tools & Methodologies – Jira, Confluence, Linux, shell scripting, Agile/Scrum.

Education – MSc Data Analytics, BE Computer Science.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Data Pipeline & Analytical Reporting System (HCL Technologies)

- Designed and implemented end-to-end **ETL pipelines** in **Python** to extract clinical and operational data from multiple enterprise databases (**PostgreSQL**, **MySQL**, **Oracle**), validate data integrity, and load transformed datasets into centralized repositories for downstream analysis.
- Built automated **reporting workflows** using **Python scripting** and scheduled **cron jobs**, generating daily and weekly statistical summaries for cross-functional stakeholders while ensuring compliance with data governance standards.
- Collaborated with biostatisticians and data engineers to validate **derived datasets** and statistical calculations, identifying and resolving data quality issues to meet regulatory and business requirements.

Production Monitoring & Incident Management Framework (HCL Technologies)

- Established and maintained monitoring infrastructure using **Splunk**, **CloudWatch**, and **Dynatrace** for enterprise **Java** and **.NET** applications, ensuring real-time visibility into system health and data pipeline reliability.
- Responded to and resolved P1/P2 incidents with meticulous root-cause analysis, maintaining **SLA compliance** and documenting corrective actions to prevent recurrence and improve system stability.
- Developed **Python** automation scripts to streamline incident detection, alerting, and remediation workflows, reducing mean-time-to-resolution (MTTR) and enhancing operational efficiency across production environments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
