+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and maintained **Python**-based **data pipelines** and **ETL workflows** for enterprise applications, processing structured datasets and enabling automated **reporting** that reduced manual effort by **40%**.
- Developed **REST APIs** and microservices using **Java Spring Boot**, with **AWS** deployment (**EC2**, **Lambda**, **S3**) and **Docker** containerisation, supporting **SLA**-critical production systems.
- Performed production monitoring and incident response across enterprise applications using **Splunk**, **CloudWatch**, and **Dynatrace**; achieved **P1/P2 SLA compliance** through proactive alerting and root-cause analysis.
- Executed complex **SQL** queries and data validation across **PostgreSQL**, **MySQL**, and **Oracle** databases; optimised schema design and wrote automation scripts reducing query execution time by **30%**.
- Automated infrastructure and operational tasks using **Python** and **Linux shell scripting** (cron jobs, log analysis), integrating with **Jenkins CI/CD** pipelines to streamline deployment workflows.
- Completed **MSc in Data Analytics** with focus on statistical analysis, data processing, and analytics engineering; proficient in **pandas**, **NumPy**, and data-driven problem solving.

SKILLS

Programming Languages – Python, Java, SQL, Shell Scripting.

Data & Analytics – pandas, NumPy, ETL, data pipelines, SQL query optimisation.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Backend & APIs – Spring Boot, REST APIs, Flask, FastAPI.

DevOps & Monitoring – Jenkins, Git, CI/CD, Splunk, Dynatrace, CloudWatch.

Databases – PostgreSQL, MySQL, Oracle, schema design, data validation.

Frontend (Basics) – Angular, React.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Implemented comprehensive monitoring dashboard using **Splunk** and **Dynatrace** to track application health across distributed **Java/.NET** services in production.
- Developed automated alerting rules and runbooks for **P1/P2 incident triage**, reducing mean time to resolution (MTTR) by **35%** and maintaining **99.5% SLA** uptime.

- Analysed production logs and performance metrics using **CloudWatch** and custom **Python** scripts to identify bottlenecks and drive optimisation recommendations.

Automated Data Pipeline & Reporting System (HCL Technologies)

- Built end-to-end **Python**-based **ETL pipeline** orchestrated via **Jenkins** to extract, transform, and load enterprise data from **Oracle** and **PostgreSQL** databases.
- Engineered scheduled **data validation** and quality checks using **pandas** and **NumPy**, ensuring data accuracy and reducing manual verification overhead by **50%**.
- Deployed pipeline on **AWS Lambda** with **CloudWatch** event triggers, achieving cost-efficient, serverless execution and enabling real-time analytics reporting for stakeholders.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
