PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Extracted, validated, and analysed financial data from enterprise applications using **SQL** (PostgreSQL, MySQL, Oracle) and **Python** scripting; performed ad-hoc queries and data reconciliation to ensure accuracy and compliance with SLA requirements.
- Designed and maintained **ETL pipelines** and automated data workflows using **Python**, **pandas**, and **NumPy** for scheduled reporting and financial data processing; reduced manual effort by approximately **30%** through process automation.
- Conducted root-cause analysis and resolved production incidents in real-time using **Splunk**, **CloudWatch**, and **Dynatrace**; maintained service-level agreements and demonstrated strong problem-solving and analytical reasoning in fast-paced environments.
- Developed proficiency in **MS Excel**-based data manipulation and reporting through hands-on work with financial datasets; applied logical reasoning to validate complex data structures and highlight discrepancies to stakeholders.
- Collaborated cross-functionally with operations and development teams using **Jira**, **Confluence**, and Agile ceremonies; demonstrated excellent communication skills and ability to prioritize competing tasks and tight deadlines in a team-oriented environment.
- Completed **MSc in Data Analytics** with specialisation in statistical analysis, data modelling, and business intelligence; equipped with advanced quantitative skills and learning orientation to master new financial analysis frameworks and accounting principles.

SKILLS

Financial & Data Analysis – SQL, Python, pandas, NumPy, ad-hoc financial data extraction, data validation, ETL workflows.

Business Intelligence & Reporting – Splunk, CloudWatch, Dynatrace, scheduled reporting, data reconciliation, metrics-driven analysis.

Technical Tools & Platforms – MS Excel, AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Core Competencies – Analytical ability, problem-solving, customer orientation, service orientation, attention to detail, responsiveness.

Communication & Collaboration – Written and verbal communication, Jira, Confluence, Agile/Scrum, cross-functional teamwork.

Operating Systems & Scripting – Linux, shell scripting, cron jobs, CI/CD pipelines.

Education & Certifications – MSc Data Analytics, BE Computer Science, IELTS Academic Band 7, Full Stack Java Spring Boot & Angular.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Financial Data Pipeline & Reconciliation (HCL Technologies)

- Designed and deployed an automated **ETL pipeline** using **Python**, **pandas**, and **PostgreSQL** to extract financial estimates and statements from multiple broker sources; achieved **99.5% accuracy** in data validation and reconciliation.
- Implemented scheduled reporting workflows using **Linux cron jobs** and **Python scripting** to deliver daily financial analysis dashboards; reduced manual data processing time by **40%** and improved timeliness of financial insights.
- Collaborated with data and operations teams to define data collection policies and attribute mapping for Balance Sheet, Income Statement, and Cash Flow Statement components; ensured compliance with accounting standards and client terminal requirements.

Production Monitoring & Incident Response System (HCL Technologies)

- Established real-time financial application monitoring using **Splunk**, **CloudWatch**, and **Dynatrace**; achieved **95%+ SLA compliance** through proactive incident detection and rapid P1/P2 resolution.
- Developed **SQL**-based diagnostic queries to isolate data quality issues and service-level impacts; employed analytical and logical reasoning to provide detailed root-cause reports to team leadership.
- Documented broker-specific rules, market updates, and financial statement analysis procedures in **Confluence**; demonstrated strong learning orientation and ability to stay current with evolving financial analysis requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
