PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **production support & incident response** for enterprise Java/.NET applications across **AWS** infrastructure, managing **P1/P2 incidents** and maintaining **99%+ SLA uptime** through proactive monitoring with **Splunk, CloudWatch, and Dynatrace**.
- Automated operational workflows and data pipelines using **Python scripting**, reducing manual reporting overhead by **40%** and improving data validation accuracy across enterprise systems.
- Diagnosed and resolved infrastructure and application issues via **Linux** log analysis, shell scripting, and system-level troubleshooting, supporting **15+** mission-critical services in production.
- Developed and maintained **REST APIs** and microservices using **Java Spring Boot**, deployed via **Docker** containers and orchestrated through **Jenkins CI/CD pipelines**, enabling rapid feature releases and bug fixes.
- Executed **SQL** queries and schema optimization across **PostgreSQL, MySQL, and Oracle** databases, performing data validation and supporting infrastructure scaling decisions with query performance insights.
- Collaborated with cross-functional teams in **Agile/Scrum** environments using **Jira** and **Git**, participating in code reviews and knowledge-sharing sessions to maintain high code quality and system reliability.

SKILLS

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Jenkins.

Backend & APIs – Java, Spring Boot, Python, REST APIs, Flask, FastAPI.

Databases – PostgreSQL, MySQL, Oracle, SQL.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, log analysis.

DevOps & Tools – Git, CI/CD pipelines, Jira, shell scripting, cron jobs.

Data & Analytics – Python, pandas, NumPy, ETL, data pipelines.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Production Support & SLA Management (HCL Technologies)

- Managed real-time monitoring and incident triage for **15+ Java/.NET microservices** deployed on **AWS**, using **Splunk and Dynatrace** dashboards to detect anomalies and escalate **P1/P2 incidents** within SLA windows.
- Authored automated remediation scripts in **Python** and shell to resolve common infrastructure issues, reducing mean-time-to-resolution (MTTR) by **35%** and minimizing manual intervention.

- Performed root-cause analysis across application, database, and infrastructure layers, collaborating with development teams to implement preventative measures and system hardening.

API Development & CI/CD Pipeline Automation (HCL Technologies)

- Developed **REST APIs** and feature enhancements in **Java Spring Boot**, containerized with **Docker**, and deployed through **Jenkins CI/CD pipelines** to reduce release cycle time by **30%**.
- Optimized **SQL queries** on **PostgreSQL and Oracle** databases, improving API response times and reducing infrastructure costs through better resource utilization.
- Conducted code reviews and mentored junior engineers on cloud-native best practices, **Git workflow**, and reliability patterns in **Agile** ceremonies.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
