PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Drove **yield and performance optimization** through root cause analysis of production incidents, using **Splunk, CloudWatch, and Dynatrace** to identify process health anomalies and implement corrective actions that reduced SLA breaches by **30%**
- Engineered **data pipelines and ETL workflows** using **Python, pandas, and SQL** to extract actionable insights from complex manufacturing datasets, enabling cross-functional teams to make rapid decisions on continuous improvement programs
- Collaborated with platform and device teams to **import new technology features to production**, establishing testing procedures and quality gates that ensured seamless deployment while maintaining product reliability targets
- Assessed quality and reliability risks across **AWS infrastructure (EC2, S3, Lambda)** and containerized environments using **Docker**, implementing safeguards aligned to enterprise standards for material and process changes
- Demonstrated strong **problem-solving in high-pressure environments**, responding to P1/P2 incidents with rapid diagnosis and recovery, while presenting complex technical findings to cross-functional stakeholders via **Confluence** documentation and Jira tracking
- Applied statistical analysis and data mining techniques to validate schema changes and optimize database queries across **PostgreSQL, MySQL, and Oracle**, improving query performance and data integrity for enterprise applications

SKILLS

Data Analytics & Statistical Analysis – Python, pandas, NumPy, SQL, data mining, structured and unstructured data analysis.

Process Engineering & Monitoring – Splunk, Dynatrace, CloudWatch, SLA management, incident response, yield analysis.

Software & Systems Engineering – Java Spring Boot, REST APIs, Docker, Linux, shell scripting, CI/CD pipelines.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Git, Jenkins.

Databases & Data Engineering – PostgreSQL, MySQL, Oracle, ETL workflows, schema optimization.

Collaboration & Communication – Jira, Confluence, Agile/Scrum, cross-functional team coordination, technical documentation.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Production Yield & Performance Optimization (HCL Technologies)

- Led root cause analysis of yield excursions in enterprise Java/.NET applications by correlating **multi-source monitoring data** from Splunk and Dynatrace, identifying latency and resource bottlenecks affecting **15+ production systems**
- Designed and implemented **automated data pipelines** in **Python** to aggregate performance metrics and defect trends, reducing manual reporting overhead by **40%** and enabling real-time visibility into product health
- Established quality workflows and preventative measures in collaboration with device and defect reduction teams, preventing recurrence of critical yield issues and maintaining **99.2% SLA compliance**

Technology Import & Product Maintenance (HCL Technologies)

- Partnered with Technology Development teams to qualify and deploy new microservice features to production infrastructure, coordinating **schema changes, data migrations, and API versioning** across **PostgreSQL and Oracle** databases
- Optimized **AWS Lambda functions and EC2 configurations** during feature rollout, conducting reliability and performance assessments that ensured adherence to Intel-grade quality standards
- Authored comprehensive **Confluence documentation** and runbooks defining deployment procedures, monitoring thresholds, and incident response protocols, enabling knowledge transfer across **Agile teams**

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
