PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed **production support and SLA compliance** for enterprise Java/.NET applications across multiple customer accounts, responding to **P1/P2 incidents** with minimal supervision and translating technical issues into business impact assessments for stakeholder communication.
- Developed **Python automation scripts** and **ETL data pipelines** to streamline operational reporting and forecast processes, reducing manual data handling by approximately **30%** and supporting financial analytics for business unit decision-making.
- Executed **SQL query optimization** and schema validation across **PostgreSQL, MySQL, and Oracle** databases, enabling accurate financial and operational data analysis critical to continuous improvement initiatives and variance reporting.
- Collaborated with cross-functional teams on **Java Spring Boot** microservices development and **REST API** design, supporting business logic changes and new product introduction workflows aligned with customer requirements.
- Supported change management by implementing **CI/CD pipelines in Jenkins** and establishing **Git branching strategies** that improved deployment reliability and enabled faster response to business unit workcell needs.
- Gathered extensive operational knowledge through **Jira and Confluence** collaboration, Agile ceremonies, and direct interaction with internal and external stakeholders, demonstrating ability to influence and negotiate across technical and business domains.

SKILLS

Business Operations & Project Management – SLA management, Incident response (P1/P2), Change management, Jira, Confluence, Agile/Scrum.

Financial & Data Analytics – SQL (PostgreSQL, MySQL, Oracle), Python data pipelines, ETL, pandas, NumPy, variance analysis, forecasting support.

Enterprise Software & Cloud Infrastructure – Java Spring Boot, REST APIs, AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Monitoring & Reliability Engineering – Splunk, Dynatrace, CloudWatch, production support, log analysis.

DevOps & Version Control – Jenkins, Git, CI/CD pipelines, shell scripting.

Proficiency Tools – Microsoft Excel, Word, PowerPoint, e-mail, personal computers.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Reliability & SLA Optimization (HCL Technologies)

- Served as primary production support engineer for mission-critical Java/.NET applications, managing **P1/P2 incident response** with focus on minimizing downtime and maintaining **SLA compliance** across multiple customer accounts.
- Utilized **Splunk and Dynatrace** to monitor application health, analyze root causes, and provide comprehensive incident reports to stakeholders, demonstrating strong communication skills and business impact awareness.
- Developed knowledge of business unit operations through direct customer interaction, supporting Quarterly Business Review (QBR) preparation and contributing to continuous improvement recommendations with technical and operational insights.

Automation & Financial Data Pipeline Development (HCL Technologies)

- Designed and implemented **Python-based ETL pipelines** and **automation scripts** to extract, transform, and load operational data from multiple sources into company financial systems, reducing manual effort by **30%**.
- Optimized **SQL queries** across **PostgreSQL, MySQL, and Oracle** databases for accuracy and performance, enabling reliable forecast and variance analysis critical to business unit financial planning.
- Supported forecast and variance processes by automating scheduled reporting through **Linux cron jobs** and **Python scripting**, improving data availability for decision-making and contributing to cost reduction initiatives.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
