PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and shipped **REST API integrations** and data pipeline solutions using **Java Spring Boot**, delivering scalable backend services that supported real-time user interactions across enterprise applications.
- Optimized application performance and reliability through **production monitoring** with **Splunk, CloudWatch, and Dynatrace**, achieving **99.5% uptime SLA** via rapid P1/P2 incident response and proactive alerting.
- Built **data visualization** and reporting automation using **Python** and **SQL** (PostgreSQL, MySQL, Oracle), processing large-scale datasets to power actionable business insights for stakeholder dashboards.
- Architected and deployed containerized microservices using **Docker** and **AWS (EC2, S3, Lambda, CloudWatch)**, enabling scalable infrastructure for high-traffic production environments.
- Implemented continuous integration pipelines using **Jenkins** and **Git**, establishing code review best practices and automated testing workflows across cross-functional agile teams.
- Contributed to full-stack feature development with exposure to **React** and **Angular** frontend frameworks, bridging backend and frontend concerns to deliver cohesive user experiences in fast-paced sprint cycles.

SKILLS

Mobile & Frontend Development – React Native, React, Angular, JavaScript, Redux.

Backend & API Development – Java, Spring Boot, REST APIs, WebSockets, FastAPI, Flask.

Database & Data Engineering – SQL, PostgreSQL, MySQL, Oracle, Python, pandas, NumPy, ETL.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux.

Monitoring & Observability – Splunk, Dynatrace, Production Support, SLA Management.

Agile & Collaboration – Jira, Confluence, Scrum, Agile Methodologies, Cross-functional Teamwork.

Education & Certifications – MSc in Data Analytics, Bachelor of Engineering in Computer Science, IELTS Band 7, Full Stack Java Spring Boot & Angular.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Real-Time Data Pipeline & Monitoring System (HCL Technologies)

- Engineered end-to-end **ETL pipeline** using **Python** to ingest, transform, and visualize large-scale transactional data streams, enabling real-time analytics dashboards for stakeholders.
- Integrated **Splunk and Dynatrace** monitoring across **REST APIs** and microservices, reducing mean time to resolution (MTTR) by **40%** through automated alerting and performance baseline analysis.

- Deployed scalable backend services on **AWS Lambda** and **EC2** with containerized **Docker** deployments, supporting high-concurrency workloads while maintaining **sub-second API response times**.

Enterprise Application Modernization & API Migration (HCL Technologies)

- Developed and shipped new features in **Java Spring Boot**, refactoring legacy monoliths into scalable microservices with standardized **REST API contracts** and comprehensive test coverage.
- Optimized database query performance using **SQL indexing and schema optimization** across **PostgreSQL and Oracle**, reducing query latency by **35%** for high-traffic user operations.
- Established **CI/CD pipelines** with **Jenkins** and **Git** branching strategies, enabling rapid and safe feature rollout while maintaining code quality standards across the engineering team.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
