PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **REST APIs** and microservices using **Java Spring Boot**, delivering high-performance backend solutions for enterprise applications with **SLA-driven** production support across multiple environments.
- Built responsive, accessible front-end features using **JavaScript (ES6+)**, **HTML**, and **CSS**, translating design concepts into clean, maintainable code aligned with modern web standards and WCAG best practices.
- Implemented **CI/CD pipelines** using **Jenkins** and **Git** workflows, enabling automated testing and deployment while maintaining code quality through collaborative code reviews and branching strategies.
- Designed and executed **Python automation scripts** and **data pipelines** for ETL workflows, leveraging **pandas** and **SQL** to validate data integrity and generate scheduled reports, improving operational efficiency.
- Integrated third-party services and managed **REST APIs** in production environments, troubleshooting performance issues using **CloudWatch**, **Splunk**, and **Dynatrace** to ensure seamless user experience and system reliability.
- Collaborated with cross-functional teams in Agile/Scrum ceremonies, managing priorities across multiple tasks in fast-paced sprints and communicating progress through **Jira** and **Confluence** for transparent delivery.

SKILLS

Frontend Development – JavaScript (ES6+), HTML, CSS/SCSS, React, Angular, responsive design, web accessibility (WCAG).

Backend & APIs – Java Spring Boot, REST APIs, Python, Flask, FastAPI, microservices architecture.

Databases & Data – PostgreSQL, MySQL, Oracle, SQL, data validation, ETL pipelines, pandas, NumPy.

DevOps & Cloud – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Git, Jenkins, CI/CD pipelines.

Monitoring & Tools – Splunk, Dynatrace, CloudWatch, Jira, Confluence, production support, SLA management.

Modern Development Practices – Git workflows, code reviews, Agile/Scrum, collaborative development, AI-assisted tools.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Java Spring Boot Microservices – Production Support & Enhancement (HCL Technologies)

- Provided **P1/P2 incident response** and **SLA management** for mission-critical Java/.NET applications, reducing mean-time-to-resolution by **30%** through proactive monitoring using **Splunk**, **CloudWatch**, and **Dynatrace**.

- Developed **REST API enhancements** and feature implementations using **Spring Boot**, ensuring backward compatibility and adherence to API design best practices.
- Optimized database queries across **PostgreSQL, MySQL, and Oracle**, performing schema validation and ad-hoc analysis to support data-driven decision-making and system performance improvements.

Automation & ETL Data Pipelines (HCL Technologies)

- Engineered **Python automation scripts** and scheduled **ETL workflows** using **pandas and NumPy**, automating routine data processing tasks and reducing manual effort by **40%**.
- Implemented **CI/CD integration** for pipeline deployment via **Jenkins** and **Git**, establishing version control and enabling rapid iteration on data engineering workflows.
- Collaborated with stakeholders to translate business requirements into scalable, maintainable data solutions, ensuring code quality through peer reviews and comprehensive testing.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
