+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **secure cloud infrastructure** on **AWS** (EC2, S3, Lambda, CloudWatch) for enterprise Java/.NET applications, applying security best practices and compliance controls to prevent unauthorized access and data exposure.
- Led **vulnerability assessment and threat modelling** across production systems using **Splunk** and **Dynatrace**, identifying security gaps in **P1/P2 incidents** and executing rapid remediation with **SLA compliance** exceeding **98%**.
- Developed secure **Python automation scripts** and **ETL data pipelines** with encryption and audit controls, reducing manual security validation overhead by **40%** and enabling data integrity checks across multiple databases.
- Architected and debugged **Spring Boot REST APIs** with authentication and authorization mechanisms, conducting code reviews to enforce secure coding practices and minimize security vulnerabilities across enterprise services.
- Implemented **Infrastructure as Code principles** using **Docker containerisation** and **Jenkins CI/CD pipelines**, establishing tamper-proof deployment workflows with audit trails and automated security scanning.
- Collaborated with security and business stakeholders to understand compliance requirements and recommend architectural modifications during vulnerability periods, supporting policy evolution and control effectiveness assessment.

SKILLS

Cloud Security & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Terraform fundamentals, CI/CD pipelines, Infrastructure as Code.

Application Security & Development – Java Spring Boot, REST APIs, secure coding practices, code review, vulnerability remediation.

Data Security & Analytics – Python, SQL (PostgreSQL, MySQL, Oracle), ETL pipelines, pandas, NumPy, data validation and integrity.

Security Monitoring & Incident Response – Splunk, Dynatrace, CloudWatch, production support, threat analysis, SLA management.

DevOps & Collaboration – Jenkins, Git, Linux, Jira, Agile/Scrum, stakeholder communication.

Certifications & Education – MSc Data Analytics, Full Stack Java Spring Boot & Angular, Python Programming (Coursera), Web Development (Coursera), IELTS Band 7.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Security Hardening (HCL Technologies)

- Conducted security-focused code review and refactoring of legacy **Java Spring Boot microservices**, identifying and remediating authentication vulnerabilities and implementing **OIDC/SAML-aligned patterns** for access control.
- Deployed **CloudWatch and Splunk monitoring** with custom security rules to detect anomalous behaviour and threat indicators, reducing mean time to detect (MTTD) for security incidents by **35%**.
- Designed tamper-proof **audit logging architecture** using **AWS S3 with encryption** and **Lambda-based log processing**, ensuring forensic defensibility and compliance with regulatory requirements.

Secure Data Pipeline & Governance Initiative (HCL Technologies)

- Engineered end-to-end **Python ETL pipeline** with encryption, data masking, and integrity checks across **PostgreSQL and Oracle databases**, automating security validation and reducing manual audit effort by **45%**.
- Implemented **Infrastructure as Code (Docker + Jenkins)** for reproducible, secure deployment of data processing jobs with built-in access controls and audit trails.
- Collaborated with security architects to incorporate **data security posture management principles** into the pipeline, enabling continuous visibility and threat scenario testing across organizational data assets.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
