PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed end-to-end lifecycle monitoring and **SLA-driven incident response** for enterprise applications using **Splunk, CloudWatch, and Dynatrace**, ensuring **99.5%+ uptime** and rapid P1/P2 resolution across distributed teams.
- Designed and deployed **Python-based ETL pipelines and data automation scripts** for production reporting and reconciliation, reducing manual data validation effort by **40%** and enabling timely insights for stakeholder decision-making.
- Performed complex **SQL analysis and schema optimization** across **PostgreSQL, MySQL, and Oracle** databases, troubleshooting data discrepancies and validating transaction integrity for accurate financial reporting.
- Developed and maintained **Java Spring Boot REST APIs** and microservices deployed on **AWS (EC2, S3, Lambda)** with **Docker containerization**, collaborating with internal teams to deliver **5+ feature releases** and bug fixes in agile sprint cycles.
- Built and optimized **CI/CD pipelines using Jenkins and Git**, implementing code review standards and automated testing to improve deployment consistency and reduce production incidents by **30%**.
- Partnered across Global ETF Client Services, Custody, and Fund Accounting teams to resolve trade settlement inquiries and drive process improvements, demonstrating adaptability in fast-paced, cross-functional environments.

SKILLS

Data Engineering & Analytics – Python, SQL (PostgreSQL, MySQL, Oracle), ETL pipelines, data validation, pandas, NumPy.

Backend Development – Java, Spring Boot, REST APIs, FastAPI, Flask.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting.

Monitoring & Operations – Splunk, Dynatrace, CloudWatch, SLA management, incident response, production support.

DevOps & Version Control – Jenkins, Git, CI/CD pipelines, code reviews, Jira, Confluence.

Soft Skills – Problem-solving, cross-team collaboration, analytical thinking, adaptability to changing environments.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Management (HCL Technologies)

- Architected comprehensive monitoring strategy using **Splunk and Dynatrace** to track KPIs and SLAs across mission-critical Java/.NET applications, enabling **real-time alerting** and reducing mean time to resolution (MTTR) by **35%**.
- Led P1/P2 incident triage and root cause analysis for production issues, collaborating with cross-functional teams across India, Europe, and North America to resolve outages and maintain service availability.
- Developed automated **Python scripts** for alert aggregation and reporting, eliminating manual log analysis and improving visibility into system health for stakeholders.

Automated Data Pipeline & Reconciliation System (HCL Technologies)

- Engineered end-to-end **Python ETL pipeline** using **pandas and SQL** to extract, validate, and load financial transaction data from multiple sources, supporting daily reconciliation processes with **99.8% accuracy**.
- Optimized database queries and implemented **schema improvements** across **Oracle and PostgreSQL**, reducing query execution time by **45%** and enabling faster data delivery for fund accounting workflows.
- Deployed pipeline on **AWS Lambda** with scheduled execution via cron jobs, enabling autonomous daily processing and generating automated reports for downstream fund operations teams.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
