PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and optimized **ETL data pipelines** using **Python** and **SQL** (PostgreSQL, MySQL, Oracle) to extract, transform, and load data across disparate systems; automated scheduled reporting reducing manual effort by **40%**
- Built and deployed **Java Spring Boot REST APIs** on **AWS** infrastructure (**EC2, S3, Lambda, CloudWatch**), enabling scalable microservices for enterprise applications with high availability requirements
- Implemented **CI/CD pipelines** using **Jenkins, Git**, and infrastructure automation; managed code reviews and deployments across multiple environments, ensuring reliable cloud-based releases
- Performed production support and reliability engineering on mission-critical applications using **Splunk, CloudWatch, and Dynatrace**; responded to **P1/P2 incidents** with **SLA compliance** and root-cause analysis
- Containerized applications using **Docker** and managed cloud infrastructure on **AWS**; demonstrated strong technical troubleshooting and problem-solving skills across distributed systems
- Collaborated with cross-functional teams (Product, QA, Infrastructure) in Agile/Scrum ceremonies; communicated complex technical concepts clearly through Jira and Confluence documentation

SKILLS

Data Integration & ETL – Python, SQL, data pipelines, schema design, PostgreSQL, MySQL, Oracle.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Infrastructure as Code concepts.

Backend Development – Java, Spring Boot, REST APIs, API design, microservices.

CI/CD & DevOps – Jenkins, Git, code reviews, deployment automation, Jira, Agile/Scrum.

Data Analysis & Monitoring – Splunk, Dynatrace, CloudWatch, log analysis, data validation.

Programming & Scripting – Python, Java, Shell scripting, pandas, NumPy.

Data Technologies – SQL querying, relational databases, NoSQL concepts, data warehousing fundamentals.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Data Pipeline & Automation Project (HCL Technologies)

- Designed and developed **Python-based ETL pipelines** integrating data from multiple enterprise sources into centralized **PostgreSQL** data store; handled complex transformations and data validation logic
- Automated manual reporting workflows using **Python scripting** and **cron jobs** on **Linux**; reduced operational overhead and improved data freshness for stakeholders

- Built scheduled **SQL-based data extraction and analysis** jobs; ensured data integrity across disparate systems and enabled business intelligence analysis

Spring Boot Microservice & Cloud Deployment Project (HCL Technologies)

- Developed **Java Spring Boot REST APIs** for enterprise service ecosystem; implemented feature enhancements and defect fixes across multiple microservices
- Deployed services on **AWS infrastructure (EC2, S3, Lambda)**; integrated **CloudWatch** monitoring and logging for reliability engineering and incident response
- Established **Jenkins CI/CD pipelines** for automated builds and cloud deployments; managed **Git** workflows and code reviews; supported production stability through proactive monitoring using **Splunk and Dynatrace**

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
