

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and delivered **production-grade Java Spring Boot** microservices with **REST APIs**, ensuring high availability and performance for enterprise applications serving multiple business units.
- Built secure, maintainable code across large corporate environments, managing **PostgreSQL, MySQL, and Oracle** databases with complex schema changes and ad-hoc query optimization for data integrity.
- Executed end-to-end software solutions leveraging **AWS cloud native** services (**EC2, S3, Lambda, CloudWatch**) and **Docker** containerization, reducing deployment friction and improving application resiliency.
- Contributed to continuous improvement through **CI/CD pipelines with Jenkins**, **Git** branching strategies, and rigorous code reviews; managed **Agile/Scrum** ceremonies and defect tracking in **Jira**.
- Performed production support and incident response for mission-critical applications using **Splunk, Dynatrace, and CloudWatch**, achieving SLA compliance on P1/P2 incidents through root-cause analysis and rapid troubleshooting.
- Developed **Python** automation scripts for **ETL data pipelines** and scheduled reporting, leveraging **pandas** and **NumPy** to synthesize large datasets and drive continuous application optimization.

SKILLS

Back-End Development – Java, Spring Boot, REST APIs, Flask, FastAPI.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Databases & Data Engineering – PostgreSQL, MySQL, Oracle, SQL, Python, pandas, NumPy.

DevOps & CI/CD – Jenkins, Git, Docker, CI/CD pipelines, Jira, Confluence.

Monitoring & Reliability – Splunk, Dynatrace, CloudWatch, SLA management, incident response.

Front-End Technologies – React, Angular.

Software Development Practices – Agile, Scrum, SDLC, secure code development, design architecture.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Java Microservices Platform (HCL Technologies)

- Architected and developed **Spring Boot** microservices with **REST API** endpoints for core business functionality, ensuring compliance with enterprise security and design constraints.
- Optimized **SQL queries** across **PostgreSQL and Oracle** databases, improving query execution time by **30%** and reducing production bottlenecks.

- Implemented **Docker** containerization and deployed services to **AWS** using **EC2 and Lambda**, enabling seamless scaling and environment consistency across development to production.

Observability & Automation Framework (HCL Technologies)

- Designed production monitoring dashboards in **Splunk and Dynatrace**, tracking application health metrics and enabling rapid P1/P2 incident detection and resolution.
- Created **Python**-based ETL automation scripts for data pipeline orchestration, processing large datasets with **pandas** for real-time reporting and business intelligence.
- Established **Jenkins CI/CD pipelines** with **Git** branching workflows, reducing manual deployment overhead and improving code quality through automated testing and reviews.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
