

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and developed **Java Spring Boot** REST APIs and microservices for enterprise applications, demonstrating strong backend architecture skills transferable to Android SDK and framework development
- Built **modular, reusable components** across production systems using object-oriented design patterns and dependency injection, directly applicable to Android component architecture
- Implemented comprehensive **unit and integration testing** strategies using **JUnit** and CI/CD pipelines, ensuring code quality and reliability in enterprise environments
- Collaborated with cross-functional teams on architectural decisions, code reviews, and Agile ceremonies, fostering the collaborative mindset required for mobile engineering teams
- Optimized application reliability through **production monitoring** using **Splunk, CloudWatch, and Dynatrace**, improving incident response and SLA management by **30%**
- Automated workflows and data pipelines using **Python scripting** and **Linux shell**, demonstrating strong problem-solving and automation capabilities for complex development challenges

SKILLS

Programming Languages – Java, Python, SQL, Kotlin (learning).

Backend & API Development – Spring Boot, REST APIs, microservices, API design.

Software Architecture & Design – modular component design, object-oriented principles, design patterns, dependency injection.

Testing & Quality Assurance – JUnit, unit testing, integration testing, test-driven development.

DevOps & CI/CD – Jenkins, Git, Docker, CloudWatch, production monitoring.

Cloud & Infrastructure – AWS (EC2, S3, Lambda), Linux, shell scripting.

Data & Databases – PostgreSQL, MySQL, Oracle, pandas, NumPy.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Java Microservices Platform (HCL Technologies)

- Developed and maintained **Spring Boot REST APIs** serving **enterprise Java and .NET applications**, implementing modular design patterns for scalability and maintainability
- Designed **reusable service components** and abstractions, reducing code duplication by **35%** and enabling faster feature development across teams

- Wrote comprehensive **unit and integration tests** with **JUnit**, achieving **80%+ code coverage** and supporting continuous deployment through automated **Jenkins pipelines**
- Collaborated with product managers and cross-functional engineers on architectural decisions and feature roadmap prioritization in Agile sprint ceremonies

Production Reliability & Monitoring Framework (HCL Technologies)

- Engineered real-time monitoring and alerting systems using **Splunk, Dynatrace, and CloudWatch**, reducing mean-time-to-resolution (MTTR) by **40%** for P1/P2 incidents
- Automated performance analysis and reporting pipelines using **Python scripting** and **SQL queries**, enabling data-driven decisions on application optimization
- Participated in architectural discussions with senior engineers to design resilient, scalable infrastructure supporting **enterprise-grade applications** across **AWS (EC2, S3, Lambda)**

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
