+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India** **09/2021 – 01/2025 (3.5 Years)**

---

- Designed and maintained **ETL data pipelines** using **Python** and **SQL** (PostgreSQL, MySQL, Oracle) to extract, transform, and distribute data across enterprise systems, supporting real-time and batch processing for analytics and business intelligence use cases.
- Built and optimized **REST APIs** and microservices using **Java Spring Boot** on **AWS** infrastructure (**EC2, S3, Lambda, CloudWatch**), enabling seamless data integration across disparate systems with **~99.5% uptime SLA** in production.
- Implemented robust **CI/CD pipelines** using **Jenkins, Git, and Maven** for automated cloud deployments, reducing deployment time by **40%** and enabling rapid iteration in agile environments.
- Performed production support and monitoring using **Splunk, CloudWatch, and Dynatrace** for enterprise Java/.NET applications, diagnosing and resolving P1/P2 incidents with strong problem-solving and troubleshooting expertise.
- Containerized applications using **Docker** and automated infrastructure provisioning, demonstrating hands-on experience with cloud-native development and infrastructure best practices.
- Collaborated across geographically distributed agile teams using Jira, Confluence, and Git version control, delivering complex technical solutions through clear communication and analysis of cross-functional requirements.

## SKILLS

**Data Integration & Pipelines** – ETL design, data transformation, Python scripting, Apache Airflow, data warehousing concepts.

**Cloud & Infrastructure** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Infrastructure as Code principles, CI/CD automation.

**Backend & API Development** – Java, Spring Boot, REST APIs, microservices architecture, API standards.

**Databases & Data Stores** – PostgreSQL, MySQL, Oracle, SQL query optimization, schema design, DynamoDB.

**DevOps & Tools** – Jenkins, Git, Maven, Jira, Linux, shell scripting, monitoring (Splunk, Dynatrace, CloudWatch).

**Data Analysis & Programming** – Python, pandas, NumPy, data validation, complex data analysis, problem-solving.

**Soft Skills** – Agile/Scrum, cross-functional collaboration, technical troubleshooting, clear communication of complex concepts.

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin** **02/2026**

---

**BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India** **01/2021**

---

## **PROJECTS**

### **Enterprise Data Integration Platform (HCL Technologies)**

- Architected and delivered an **ETL solution** integrating data from multiple legacy systems into a centralized **data lake** using **Python, SQL**, and **AWS Lambda**, enabling business analytics across disparate sources.
- Implemented data transformation logic to handle multiple file formats and schema validation, ensuring data quality and consistency for downstream consumers.
- Deployed scalable infrastructure using **Infrastructure as Code** principles and monitored pipeline health using **CloudWatch** and custom **Python** alerting scripts, achieving **99.2% pipeline reliability**.

### **Microservices Reliability & Performance Optimization (HCL Technologies)**

- Enhanced **Java Spring Boot** microservices running on **AWS EC2** by implementing caching strategies and query optimization, reducing API response times by **35%** and improving system scalability.
- Established production monitoring using **Splunk** and **Dynatrace**, creating dashboards and alerting rules for proactive incident detection and reducing MTTR by **50%**.
- Automated deployment workflows using **Jenkins CI/CD pipelines** and **Git** branching strategies, enabling the team to deploy updates **5x faster** while maintaining code quality through peer reviews.

## **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
