

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Designed and delivered **data integration pipelines** processing enterprise data across **AWS (S3, Lambda, CloudWatch)** and on-premises systems, enabling real-time monitoring and **SLA management** for mission-critical applications.
- Built **ETL workflows** using **Python** scripting and **SQL (PostgreSQL, MySQL, Oracle)** to extract, transform, and load data from disparate sources into centralized repositories, reducing manual data validation overhead by **40%**.
- Implemented **CI/CD pipelines** using **Jenkins, Git**, and infrastructure automation, ensuring consistent cloud deployments across development and production environments with robust code review practices.
- Developed **REST APIs** and microservices using **Java Spring Boot**, following distributed systems design principles to build scalable, high-performance backend services supporting cross-functional product teams.
- Performed reliability engineering and production incident response (P1/P2), leveraging **Splunk, Dynatrace**, and **CloudWatch** for observability, root-cause analysis, and performance optimization of enterprise applications.
- Collaborated with geographically distributed teams across Product Management, Integration Engineering, and Quality Assurance to design data acquisition solutions meeting functional and non-functional business requirements in Agile environments.

SKILLS

Cloud & Data Platforms – AWS (EC2, S3, Lambda, CloudWatch), Docker, CI/CD (Jenkins, Git).

Data Engineering & Integration – Python, SQL (PostgreSQL, MySQL, Oracle), ETL/data pipelines, Apache Airflow basics.

Backend Development – Java, Spring Boot, REST APIs, Microservices.

Big Data & Querying – pandas, NumPy, SQL analytics, DynamoDB experience.

DevOps & Infrastructure – Linux, shell scripting, Docker containerization, Jenkins pipelines.

Observability & Reliability – Splunk, Dynatrace, CloudWatch, incident response, SLA management.

Tools & Methodologies – Jira, Confluence, Git, Agile/Scrum, code reviews.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Data Integration Platform (HCL Technologies)

- Architected and implemented **data acquisition and integration solutions** connecting legacy on-premises systems with **AWS cloud infrastructure (S3, Lambda)**, enabling seamless data distribution across multiple data stores.
- Developed **Python-based ETL pipelines** with scheduled jobs and **cron automation** to extract, transform, and validate data from disparate file formats, reducing manual reconciliation time by **35%**.
- Implemented **infrastructure as code** principles using **CloudFormation** templates to standardize deployment processes and ensure consistency across development, staging, and production environments.

Real-Time Monitoring & Reliability Engineering System (HCL Technologies)

- Designed and maintained production support infrastructure using **Splunk, Dynatrace, and CloudWatch** for centralized logging, alerting, and performance analytics across enterprise Java and .NET applications.
- Developed **custom SQL queries** and **Python automation scripts** for proactive data validation, anomaly detection, and SLA compliance reporting, enabling faster incident triage and resolution.
- Collaborated with cross-functional teams (QA, System Admin, Platform Engineering) to troubleshoot complex distributed systems issues and implement scalable solutions supporting high-availability requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
