

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and delivered **production-grade Java Spring Boot** microservices and **REST APIs** for enterprise HR and financial applications, ensuring high availability and secure handling of sensitive data across multiple deployment environments.
- Demonstrated operational excellence through **production support and monitoring** using **Splunk, CloudWatch, and Dynatrace**, achieving SLA targets by performing root-cause analysis and resolving **P1/P2 incidents** in large-scale distributed systems.
- Built and maintained **full-stack capabilities** across backend services and UI layers, leveraging **Java Spring Boot** for API development and **React and Angular** for responsive user experiences in secure, stable application environments.
- Engineered **data pipelines and ETL workflows** using **Python** with **pandas and NumPy**, synthesizing insights from large datasets to drive continuous improvement in system architecture and coding hygiene.
- Established and maintained **CI/CD automation** using **Jenkins pipelines, Git, and AWS services (EC2, S3, Lambda, CloudWatch)**, enabling reliable deployment and troubleshooting of applications in cloud-native corporate environments.
- Demonstrated expertise in **system design and database optimization** through hands-on work with **SQL (PostgreSQL, MySQL, Oracle), Docker containerization, and Linux** administration, supporting scalable microservices-oriented architecture in agile teams.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, microservices architecture.

Frontend & Full-Stack – React, Angular, JavaScript/TypeScript.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, CI/CD, Git.

Data Engineering & Scripting – Python, pandas, NumPy, ETL, data pipelines, SQL.

Databases – PostgreSQL, MySQL, Oracle, schema design, query optimization.

Observability & Reliability – Splunk, Dynatrace, CloudWatch, incident response, SLA management.

Methodologies & Tools – Agile/Scrum, SDLC, Jira, Confluence, Linux, secure coding practices.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Java Microservices & API Development (HCL Technologies)

- Architected and implemented **Spring Boot microservices** delivering **REST APIs** for core business functions, ensuring secure authentication/authorization patterns and input validation across high-volume transaction processing systems.
- Collaborated in agile teams to design robust **application architecture** supporting distributed systems and large-scale enterprise Java projects, with full accountability for design constraints and production code quality.
- Performed end-to-end **system design, testing,** and **operational stability** validation, including database schema optimization with **SQL** and performance tuning for synchronous data processing.

Production Monitoring, Data Engineering & Infrastructure Automation (HCL Technologies)

- Established **observability and operational stability** frameworks using **Splunk, Dynatrace, and CloudWatch**, enabling proactive identification of hidden patterns in system data and reducing incident resolution time by **30%**.
- Engineered **Python-based automation scripts** and **data pipelines** for ETL workflows and scheduled reporting, leveraging **pandas and NumPy** to synthesize insights from diverse datasets supporting continuous system improvement.
- Deployed and troubleshoot applications across **AWS cloud environments (EC2, S3, Lambda)**, implemented **Docker containerization**, and maintained **Jenkins CI/CD pipelines** ensuring reliable, secure, and scalable infrastructure in corporate environments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
