

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Developed and maintained **Java Spring Boot REST APIs** serving enterprise applications, collaborating with frontend teams to optimize data flow and reduce latency in UI rendering cycles
- Built **Python automation pipelines** and ETL workflows that processed large datasets, improving observability and enabling rapid iteration on product features through reliable data foundations
- Profiled and optimized application performance across **AWS infrastructure** (EC2, Lambda, CloudWatch), reducing response times and ensuring consistent user experience across client devices
- Established **CI/CD practices** using **Jenkins** and **Git**, enabling rapid feature deployment and maintaining code quality through automated testing and peer reviews in Agile environments
- Diagnosed and resolved **P1/P2 production incidents** using **Splunk and Dynatrace**, demonstrating attention to detail in identifying performance bottlenecks and user-facing issues
- Mentored junior engineers on debugging techniques, code quality standards, and reliability-first thinking—building a culture where shipping polished, performant work is non-negotiable

SKILLS

Mobile & Frontend – React, Angular, responsive UI design, interaction patterns.

Backend & APIs – Java, Spring Boot, REST APIs, Flask, FastAPI.

Data & Databases – Python, SQL, PostgreSQL, MySQL, Oracle, pandas, NumPy.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Monitoring & Observability – Splunk, Dynatrace, performance profiling, debugging.

Core Skills – Linux, shell scripting, Jira, Agile/Scrum, technical communication.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise Java Application Production Support & Optimization (HCL Technologies)

- Managed production reliability for high-traffic **Java/.NET applications**, maintaining SLA targets through proactive monitoring with **Splunk and Dynatrace**
- Implemented **performance profiling** across AWS infrastructure to identify bottlenecks affecting user experience, reducing P1 incident response time by diagnosing root causes in application render cycles
- Collaborated with platform teams to optimize **data flow into the view layer**, ensuring efficient state management and reducing unnecessary re-renders in dependent frontend services

Python Automation & Data Pipeline Development (HCL Technologies)

- Designed and deployed **Python ETL pipelines** using **pandas and NumPy** for data validation and scheduled reporting, improving data quality visibility across the organization
- Authored **shell scripts and cron jobs** on **Linux** for automated monitoring and alerting, enabling faster detection of issues before they impact production stability
- Established interaction patterns and quality standards in automation tooling that became the foundation for team-wide reliability practices

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
