+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Supported production reliability and operational excellence across enterprise **Java/.NET applications** using **Splunk, CloudWatch, and Dynatrace**; managed SLA compliance and P1/P2 incident response, directly contributing to system uptime and efficiency metrics.
- Analysed production data and business processes using **Python, SQL, and pandas** to identify inefficiencies; developed **automated data pipelines and ETL scripts** that reduced manual reporting time by enabling real-time KPI tracking and monitoring.
- Applied problem-solving and root cause analysis methodologies to resolve production incidents; documented findings and collaborated with cross-functional teams to implement corrective actions and prevent recurrence.
- Supported process improvement initiatives through **data collection, time studies, and performance tracking** using **Excel and SQL**; presented analysis and recommendations to engineering and operations teams.
- Demonstrated strong analytical capabilities by performing ad-hoc **data validation and schema analysis** on **PostgreSQL, MySQL, and Oracle databases**; generated insights to support operational decision-making.
- Worked collaboratively with production, quality, and engineering teams in **Agile/Scrum environments**; leveraged **Jira, Confluence, and Git** to track improvements, maintain documentation, and ensure knowledge sharing across the organisation.

SKILLS

Data & Analytics – Python, SQL (PostgreSQL, MySQL, Oracle), pandas, NumPy, Excel, data validation, KPI tracking.

Continuous Improvement & Problem-Solving – Root cause analysis, process analysis, data collection, time studies, efficiency optimisation.

Production Support & Monitoring – Splunk, CloudWatch, Dynatrace, SLA management, incident response, system reliability.

Automation & Scripting – Python scripting, ETL pipelines, scheduled reporting, Linux, shell scripting.

Collaboration & Tools – Jira, Confluence, Agile/Scrum, Git, cross-functional teamwork, technical documentation.

Engineering Foundations – Java Spring Boot, REST APIs, Docker, AWS (EC2, S3, Lambda), CI/CD pipelines, Jenkins.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Production Monitoring & Incident Response Programme (HCL Technologies)

- Managed real-time monitoring of mission-critical enterprise applications using **Splunk and Dynatrace**; tracked SLA metrics and responded to P1/P2 incidents with rapid troubleshooting and escalation protocols.
- Analysed production logs and performance data to identify recurring issues and bottlenecks; documented findings and collaborated with senior engineers to develop preventive maintenance strategies.
- Contributed to operational excellence by maintaining incident logs in **Jira** and supporting post-incident reviews; improved team knowledge through clear communication of root causes and resolutions.

Data Pipeline & Automation for Reporting (HCL Technologies)

- Designed and implemented **Python-based ETL scripts** to automate data collection from multiple sources; reduced manual reporting effort and enabled real-time access to business and operational KPIs.
- Executed **SQL queries** against **PostgreSQL and MySQL databases** to validate data integrity and perform ad-hoc analysis; identified data quality issues and supported corrective actions.
- Developed **scheduled automation jobs** using Linux cron and shell scripting; improved reporting timeliness and accuracy, supporting data-driven decision-making across production and operations teams.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
