+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and deployed **Python**-based **data pipelines** and **ETL workflows** for enterprise applications, processing structured and unstructured data with **pandas** and **NumPy** to support analytics and reporting across SaaS platforms.
- Operated and monitored production **Java Spring Boot** microservices and **REST APIs** using **Splunk**, **CloudWatch**, and **Dynatrace**, achieving **99.5%+ SLA compliance** through rapid P1/P2 incident response and observability-driven reliability engineering.
- Automated infrastructure provisioning and application deployment using **Jenkins CI/CD pipelines**, **Docker containerisation**, and **AWS services (EC2, S3, Lambda, CloudWatch)**, reducing deployment overhead and improving velocity across teams.
- Implemented **SQL**-driven data validation and schema optimization across **PostgreSQL, MySQL, and Oracle** databases, supporting feature development and enabling data-driven decision-making for business stakeholders.
- Demonstrated intellectual curiosity through self-directed learning in **Flask, FastAPI**, and full-stack frameworks, translating emerging patterns into production-ready code and mentoring junior engineers on best practices.
- Collaborated across Agile teams using **Git** branching, code reviews, and **Jira** ticketing workflows, communicating technical trade-offs to both engineers and non-technical stakeholders in a fast-moving enterprise environment.

SKILLS

Programming Languages – Python, Java, SQL, TypeScript (basics).

AI & Data Engineering – Python scripting, ETL pipelines, data validation, pandas, NumPy, Flask, FastAPI.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux shell scripting.

Databases & Observability – PostgreSQL, MySQL, Oracle, Splunk, Dynatrace, CloudWatch.

Software Engineering – Spring Boot, REST API development, microservices, code reviews, Agile/Scrum.

Soft Skills – Technical communication, incident management, SLA ownership, cross-functional collaboration.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Data Pipeline Automation (HCL Technologies)

- Built **Python**-based **ETL pipeline** processing **10M+ records daily** using **pandas** and **NumPy**, improving data refresh latency by **40%** and enabling real-time reporting for insurance claim analytics.
- Deployed pipeline on **AWS Lambda** with scheduled execution via **CloudWatch Events**, implementing automated **SQL** validation checks against **PostgreSQL** to ensure data integrity across multiple downstream systems.
- Integrated pipeline with **Jenkins CI/CD** for automated testing and deployment, establishing monitoring dashboards in **CloudWatch** to track execution health and data quality metrics.

Microservices Reliability & Observability Program (HCL Technologies)

- Led production support for **3+ Spring Boot microservices** handling **50K+ daily transactions**, achieving **99.5% SLA compliance** through rapid incident diagnosis using **Splunk**, **Dynatrace**, and **CloudWatch** observability.
- Containerised legacy **Java** applications using **Docker** and deployed via **Jenkins** pipelines to **AWS EC2**, reducing deployment time from **2 hours to 15 minutes** and enabling faster incident recovery.
- Documented incident patterns and created runbooks for common failure scenarios, coaching **5+ junior engineers** on troubleshooting methodologies and establishing institutional knowledge across the team.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
