PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Owned end-to-end feature delivery across **Java Spring Boot** backend services and **Angular** frontend, managing data pipelines with **Python** ETL scripts and **SQL** queries on **PostgreSQL, MySQL, Oracle** — reducing manual reporting overhead by **40%**.
- Built and maintained scalable **REST APIs** and microservices using **Spring Boot**, integrated with **AWS (EC2, S3, Lambda, CloudWatch)** and containerised with **Docker**, supporting **P1/P2 incident response** and **SLA management** in production environments.
- Self-sourced and queried data from enterprise data sources using **SQL**, wrote **Python** automation scripts for **ETL pipelines**, and implemented scheduled reporting — demonstrating comfort navigating complex data platforms and validating data quality at scale.
- Implemented reliable **CI/CD pipelines** with **Jenkins, Git** branching strategies, and code reviews; managed infrastructure monitoring via **Splunk, Dynatrace, CloudWatch** — strengthening deployment reliability and observability practices.
- Leveraged **AI-assisted development** tools and code generation to accelerate feature delivery; demonstrated rapid skill acquisition across **Python, Java, SQL, AWS** and modern frameworks through continuous learning and production application.
- Developed strong operational mindset through production support, Linux troubleshooting, log analysis, and Agile/Scrum ceremonies — building the high-ownership, problem-solving orientation and ability to work from ambiguous requirements essential for forward-deployed engineering.

SKILLS

Backend & APIs – Java Spring Boot, REST APIs, Python (Flask, FastAPI), Microservices architecture.

Frontend & UI – Angular, React, HTML/CSS, component architecture.

Data & SQL – SQL (PostgreSQL, MySQL, Oracle), Python (pandas, NumPy), ETL pipelines, data validation.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, CI/CD (Jenkins), Git, Linux.

Monitoring & Reliability – Splunk, Dynatrace, CloudWatch, production support, SLA management, incident response.

Other – Jira, Confluence, Agile/Scrum, AI-assisted development, rapid technical learning.

Education – MSc Data Analytics (National College of Ireland), BE Computer Science.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Reliability & Data Pipeline Automation (HCL Technologies)

- Managed production support and **SLA-driven incident response** for large-scale enterprise **Java and .NET applications**, using **Splunk, Dynatrace, CloudWatch** for monitoring and root-cause analysis — ensuring uptime and rapid resolution of P1/P2 incidents.
- Developed **Python automation scripts** for **ETL data pipelines** and scheduled reporting, eliminating manual data handling and improving reporting turnaround by **40%** while maintaining data quality and validation standards.
- Deployed and maintained containerised services using **Docker** on **AWS EC2/S3**, with integrated **CloudWatch** monitoring — gaining hands-on experience with scalable, secure infrastructure and observability patterns in production.

Full-Stack Feature Development & API Integration (HCL Technologies)

- Delivered end-to-end features combining **Spring Boot REST APIs**, **SQL** data querying, and **Angular** frontend components — practicing autonomous ownership across data, backend logic, and user-facing UI layers.
- Wrote and optimised **SQL queries** against **PostgreSQL, MySQL, Oracle** databases for ad-hoc analysis and schema changes; self-sourced data requirements and validated correctness — building foundation for working independently with lakehouse/data platforms.
- Implemented **CI/CD pipelines** with **Jenkins**, managed **Git** branching and code reviews, and integrated AI-assisted coding tools to accelerate development velocity while maintaining code quality and deployment reliability.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
