PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and maintained **Python-based data pipelines** and **ETL workflows** for enterprise Java/.NET applications, processing production data at scale with **pandas** and **NumPy** for analytics and reporting.
- Supported deployment and operation of **ML-enabled services** by building **REST APIs** with **Spring Boot** and **FastAPI**, enabling data scientists to translate models into production-ready inference services.
- Implemented **monitoring and observability** for production systems using **Splunk, CloudWatch, and Dynatrace**, reducing incident response time by identifying performance anomalies and ensuring **SLA compliance** for critical data workflows.
- Developed and optimized **SQL** queries across **PostgreSQL, MySQL, and Oracle** for data validation, feature engineering, and ad-hoc analysis; automated schema changes and data preparation tasks using **Python scripting**.
- Orchestrated **CI/CD pipelines** using **Jenkins** and **Git** to ensure reliable model and service deployment; containerized applications with **Docker** to enable scalable, reproducible ML workflows across environments.
- Collaborated with cross-functional teams on **Agile/Scrum** ceremonies while managing P1/P2 incidents; demonstrated ownership mentality by debugging complex production issues and documenting solutions for knowledge sharing and reliability improvement.

SKILLS

AI & Machine Learning – Data pipelines, Feature engineering, ML model deployment, Model monitoring, Inference services.

Programming Languages – Python, Java, SQL.

Data & ML Libraries – pandas, NumPy, Flask, FastAPI.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Databases – PostgreSQL, MySQL, Oracle.

DevOps & Observability – Jenkins, Git, Splunk, Dynatrace, CI/CD.

Frameworks & APIs – Spring Boot, REST APIs.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Data Pipeline & Monitoring System (HCL Technologies)

- Built end-to-end **Python-based ETL pipeline** to ingest, validate, and transform production data from multiple enterprise systems; integrated with **PostgreSQL and Oracle** for reliable storage and querying.

- Deployed **REST API layer** using **FastAPI** to expose processed data to downstream services and analytics dashboards, enabling real-time data access for business stakeholders.
- Configured **CloudWatch and Splunk monitoring** to track pipeline health, data quality metrics, and latency; implemented automated alerts and dashboards, reducing manual oversight and improving mean-time-to-detection for failures.

ML Model Deployment & Inference Service (HCL Technologies)

- Collaborated with data scientists to operationalize **ML models** by building **Spring Boot microservices** for batch and real-time inference; containerized services with **Docker** for consistent deployment across staging and production **AWS** environments.
- Implemented **CI/CD pipeline** using **Jenkins** to automate model versioning, testing, and deployment; established **Git branching** strategy and code review process to maintain code quality and ensure reproducibility.
- Monitored model performance and system reliability using **Dynatrace**; debugged production issues by analyzing logs, optimizing query performance, and improving inference latency by **30%** through caching and schema optimization.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
