PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed production reliability and incident response for enterprise **Java** and **.NET** applications, achieving **99.5%+ uptime** through proactive monitoring with **Splunk, CloudWatch, and Dynatrace**; resolved **P1/P2 incidents** within SLA targets across distributed systems
- Designed and implemented **Python**-based automation scripts and **ETL data pipelines** that reduced manual operational overhead by **40%** and improved incident detection latency by processing **CloudWatch** logs in real-time
- Developed and maintained **Java Spring Boot** microservices and **REST APIs** on **AWS** infrastructure (**EC2, S3, Lambda, CloudWatch**), ensuring reliability standards and system scalability across production environments
- Optimised database performance through **SQL** query tuning and schema validation across **PostgreSQL, MySQL, and Oracle**, reducing query execution time by **35%** and supporting data-driven incident analysis
- Established robust **CI/CD pipelines** using **Jenkins** and **Git** with code review protocols, enabling safe deployments and reducing production incidents related to code quality by **30%**
- Automated infrastructure and operational tasks using **Linux shell scripting, Docker containerisation, and cron jobs**, improving deployment consistency and reducing manual configuration errors across **Agile/Scrum** teams

SKILLS

Languages & Runtimes – Java, Python, SQL, Shell/Bash.

Backend & Frameworks – Spring Boot, REST APIs, Flask, FastAPI.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, log analysis.

Data & Databases – PostgreSQL, MySQL, Oracle, pandas, NumPy, ETL pipelines.

DevOps & Tools – Jenkins, Git, Jira, CI/CD, Agile/Scrum.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Response Platform (HCL Technologies)

- Architected real-time monitoring solution using **Splunk and Dynatrace** for enterprise **Java** and **.NET** applications, enabling visibility into **99.5%+ SLA** compliance across production systems
- Developed **Python** automation scripts to correlate **CloudWatch** metrics with application logs, reducing mean time to detection (MTTD) by **45%** and improving incident response velocity

- Implemented alerting rules and dashboards that reduced false positives by **50%**, allowing the team to focus on genuine **P1/P2** production issues within critical SLA windows

Data Pipeline & Operational Automation Framework (HCL Technologies)

- Built **Python-based ETL pipelines** processing enterprise data through **PostgreSQL, MySQL, and Oracle**, automating scheduled reporting and reducing manual data validation effort by **40%**
- Deployed **Lambda functions** on **AWS** with **Docker containerisation** to orchestrate **CI/CD workflows** via **Jenkins**, enabling automated infrastructure provisioning and reducing deployment cycles by **25%**
- Created **Linux shell scripts** and **cron job** schedules for daily data reconciliation and health checks, improving operational reliability and minimising manual intervention across distributed systems

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
