PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and maintained **scalable cloud-native services** on **AWS** (EC2, S3, Lambda, CloudWatch), supporting enterprise Java and .NET applications with **99%+ uptime SLA** through proactive monitoring using **Splunk, Dynatrace**, and CloudWatch.
- Developed **Python-based data pipelines and ETL workflows** for analytics and reporting, leveraging **pandas, NumPy** to process and validate large datasets; designed **REST APIs** using **Spring Boot** to expose analytical capabilities to downstream consumers.
- Built and optimized **SQL queries** across **PostgreSQL, MySQL, Oracle** for ad-hoc analysis and schema optimization; performed data validation and transformation tasks supporting data-driven decision-making across business units.
- Implemented **CI/CD pipelines** using **Jenkins and Git**, establishing code review standards and automated testing practices; reduced deployment lead time by **30%** through pipeline optimization and containerization with **Docker**.
- Collaborated across global teams on reliability engineering and incident response, translating production issues into architectural improvements; participated in design reviews and applied modern engineering best practices (clean code, testing, security) to enhance system robustness.
- Contributed to modernization of legacy systems through cloud migration efforts and service-oriented architecture redesign; implemented monitoring and observability improvements that reduced mean-time-to-resolution (MTTR) by **25%** for P1/P2 incidents.

SKILLS

Languages & Frameworks – Python, Java, Spring Boot, Flask, FastAPI, SQL.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting.

Data & Analytics – ETL pipelines, data validation, pandas, NumPy, PostgreSQL, MySQL, Oracle.

APIs & Services – REST API development, service-oriented architecture, microservices patterns.

DevOps & Tools – Jenkins, Git, CI/CD, Jira, Confluence, Splunk, Dynatrace.

Frontend – Angular, React.

Soft Skills – Agile/Scrum, code reviews, cross-functional collaboration, incident response, technical documentation.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Reliability Engineering (HCL Technologies)

- Architected production support framework for enterprise **Java/.NET applications** deployed on **AWS**, implementing real-time alerting and dashboards in **Splunk and Dynatrace** to track SLA compliance and system health metrics.
- Led incident response and root-cause analysis for **P1/P2 production issues**, reducing mean-time-to-resolution by **25%** through systematic log analysis on **Linux** environments and collaborative troubleshooting with development teams.
- Designed and deployed **Python automation scripts** for routine operational tasks, including health checks, log aggregation, and scheduled reporting; reduced manual intervention time by **40%** through intelligent alerting and auto-remediation.

Scalable Data Pipeline & Analytics API Platform (HCL Technologies)

- Built end-to-end **ETL pipelines** using **Python, pandas, NumPy** to extract, transform, and load data from multiple sources into analytical databases; processed **100M+ records daily** with **99.5% accuracy** through rigorous validation frameworks.
- Developed **REST APIs** using **Spring Boot** to expose analytical datasets and aggregations to downstream business applications; implemented caching and query optimization, reducing API response time by **35%**.
- Optimized **SQL queries** across **PostgreSQL and Oracle** databases for reporting and ad-hoc analysis; implemented **Docker containerization** and **CI/CD pipelines with Jenkins** for automated deployment, enabling data teams to iterate **3x faster**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
