+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Led **production support and reliability monitoring** of enterprise **Java/.NET applications** using **Splunk, CloudWatch, and Dynatrace**, managing SLA compliance and responding to **P1/P2 incidents** with root-cause analysis and corrective actions aligned to safety and quality standards.
- Designed and maintained **Python data pipelines and ETL workflows** for automated reporting and data validation, supporting **3+ mission-critical systems** and ensuring data integrity across **PostgreSQL, MySQL, and Oracle** databases.
- Developed and deployed **Java Spring Boot microservices and REST APIs** on **AWS infrastructure (EC2, S3, Lambda, CloudWatch)** with **Docker containerization**, following CI/CD best practices via **Jenkins pipelines** and Git version control.
- Performed **system failure analysis and hazard identification** during incident response, documenting findings and recommending design improvements and preventive actions to reduce recurrence and enhance system reliability.
- Collaborated with cross-functional teams in **Agile/Scrum environments** using **Jira and Confluence** to track defects, manage design traceability, and ensure alignment of technical solutions with business and quality requirements.
- Demonstrated proficiency in **Linux shell scripting, log analysis, and automated cron jobs**, enabling rapid troubleshooting and operational efficiency across production and development environments.

SKILLS

Safety & Reliability Engineering – hazard analysis, failure investigation, root-cause analysis, reliability monitoring, corrective and preventive actions.

Software Development – Java, Spring Boot, Python, REST APIs, microservices, design patterns.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, CI/CD pipelines, Git.

Database & Data Engineering – SQL, PostgreSQL, MySQL, Oracle, Python pandas, NumPy, ETL, data pipelines.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, SLA management, incident response.

Tools & Methodologies – Jira, Confluence, Agile, Scrum, Linux, shell scripting.

Frontend Technologies – Angular, React, JavaScript, HTML, web development.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Reliability and Risk Mitigation Program (HCL Technologies)

- Led **production support operations** for multi-tier **Java and .NET applications**, identifying system hazards and implementing **reliability engineering practices** to reduce P1 incident recurrence by **30%** over 18 months.
- Designed and implemented **automated monitoring dashboards** using **Splunk and Dynatrace**, enabling real-time hazard detection and rapid response to potential failures affecting system performance.
- Documented **design verification and traceability records** for critical system changes, ensuring alignment with quality standards and supporting cross-functional risk assessments and safety reviews.

Data Pipeline and Automated Reporting Infrastructure (HCL Technologies)

- Engineered **Python-based ETL pipelines** and **data validation workflows** using **pandas and NumPy** to process and consolidate data from multiple sources, supporting reliable reporting for stakeholder decision-making.
- Developed **Java Spring Boot REST APIs** deployed on **AWS Lambda and Docker** with **automated Jenkins CI/CD pipelines**, enabling scalable and maintainable data processing services.
- Optimized **SQL queries and database schema management** across **PostgreSQL and Oracle** to ensure data integrity and performance, implementing robust error handling and retry logic for production reliability.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
