PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed production support and incident response for enterprise applications across **Java**, **.NET**, and cloud infrastructure using **Splunk**, **CloudWatch**, and **Dynatrace**; coordinated with cross-functional teams to resolve P1/P2 issues and maintain SLA compliance, demonstrating strong reliability engineering and team collaboration skills.
- Designed and implemented **Python**-based data pipelines and **ETL** workflows for automated reporting and data validation; leveraged **pandas**, **NumPy**, and scheduled jobs to support data-driven decision-making across engineering teams.
- Developed and maintained **REST APIs** and microservices using **Java Spring Boot**; managed full development lifecycle from feature scoping to deployment via **Jenkins CI/CD pipelines**, with code reviews and Git branching practices aligned to Agile/Scrum ceremonies.
- Provisioned and optimized cloud infrastructure on **AWS (EC2, S3, Lambda, CloudWatch)**; containerized applications using **Docker** and managed infrastructure-as-code practices, supporting scalable and reliable deployment pipelines.
- Conducted ad-hoc data analysis and complex schema changes using **SQL (PostgreSQL, MySQL, Oracle)**; validated data integrity and optimized queries to support project planning, risk assessment, and technical compliance reporting.
- Performed site-level monitoring and log analysis using **Linux** shell scripting and **Splunk dashboards**; identified design-related risks, maintained accurate records of system activities and incidents, and escalated critical issues to management proactively.

SKILLS

Backend & API Development – Java, Spring Boot, Python, Flask, FastAPI, REST APIs.

Database & Data Engineering – SQL, PostgreSQL, MySQL, Oracle, pandas, NumPy, ETL, data pipelines.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting.

DevOps & Version Control – Jenkins, Git, CI/CD pipelines, Jira, Confluence.

Monitoring & Reliability – Splunk, Dynatrace, CloudWatch, log analysis, SLA management.

Frontend Fundamentals – Angular, React.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Reliability & Incident Management (HCL Technologies)

- Led production support operations for high-availability Java and .NET enterprise applications serving Fortune 500 clients; monitored system health across **Splunk, CloudWatch, and Dynatrace** to detect and respond to incidents within defined SLAs.
- Collaborated with central engineering teams, site supervisors, and third-party vendors to diagnose root causes, implement fixes, and prevent recurrence; maintained comprehensive incident records and escalation protocols aligned to risk and priority matrices.
- Proactively identified design-related risks and system vulnerabilities through continuous log analysis and performance tuning; contributed optimization recommendations that reduced incident response time by improving infrastructure and application reliability.

Data Pipeline Development & Automated Reporting (HCL Technologies)

- Architected and deployed **Python-based ETL pipelines** using **pandas and NumPy** to ingest, validate, and transform data from multiple sources; scheduled jobs using **cron** for automated daily reporting and data quality checks.
- Developed comprehensive scope-of-work documentation and task information deliverables for data engineering initiatives; coordinated with planning and estimators to align data validation workflows with construction and project delivery schedules.
- Integrated automated workflows with **Jenkins CI/CD pipelines** and **AWS Lambda** for serverless execution; ensured data integrity through **SQL** validation queries and maintained accurate records of data changes and schema updates for audit and compliance purposes.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
