+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **end-to-end production support and incident management** for enterprise Java/.NET applications, responding to **P1/P2 incidents** within SLA targets using **Splunk, CloudWatch, and Dynatrace** — experience coordinating cross-functional response teams and escalating risks similar to change initiative oversight
- Developed and maintained **project tracking and reporting infrastructure** using **Python automation scripts, SQL queries, and Jira dashboards** to monitor application health, extract actionable insights, and communicate status to stakeholders — directly applicable to RAID logs and project reporting packs
- Led **CI/CD pipeline improvements** via **Jenkins and Git**, coordinating code reviews and deployment gates across development teams — experience in process governance and change control aligned with Mercury's Change Framework requirements
- Engineered **data pipelines and ETL workflows** in **Python (pandas, NumPy)** and **SQL (PostgreSQL, MySQL, Oracle)** to automate business reporting and data validation, demonstrating analytical rigor and attention to regulatory compliance
- Managed **AWS infrastructure tasks (EC2, S3, Lambda, CloudWatch)** and **Docker containerisation**, working within defined governance and deployment protocols — relevant to digital and IT implementation change initiatives
- Completed **MSc in Data Analytics** (Feb 2026) while delivering production support, demonstrating commitment to professional development, analytical problem-solving, and the ability to balance operational delivery with strategic learning — core competencies for Mercury's graduate programme trajectory

SKILLS

Project & Change Management – Jira, Confluence, stakeholder coordination, risk escalation, Agile/Scrum, cross-functional task management.

Data & Analytics – Python, SQL (PostgreSQL, MySQL, Oracle), pandas, NumPy, data validation, ETL, business reporting.

Software Engineering & Infrastructure – Java Spring Boot, REST APIs, AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

DevOps & Automation – Jenkins CI/CD pipelines, Git, shell scripting, deployment governance, code reviews.

Monitoring & Reliability – Splunk, Dynatrace, incident response, SLA management, production support.

Professional Qualifications – MSc Data Analytics (National College of Ireland), BE Computer Science, IELTS Band 7, Full Stack Java Spring Boot & Angular.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Management Platform (HCL Technologies)

- Designed and operationalised **real-time monitoring dashboards** in **Splunk and Dynatrace** for **3+ mission-critical applications**, enabling **sub-5-minute P1 incident detection** and coordinating cross-functional response workflows
- Automated incident reporting and root-cause analysis using **Python scripts** and **SQL queries**, reducing manual post-incident review time by **40%** and improving SLA compliance tracking
- Established escalation protocols and risk logging frameworks (RAID-style documentation) with development teams, ensuring stakeholder alignment and governance in high-pressure incident scenarios

Business Intelligence & Data Pipeline Automation (HCL Technologies)

- Built end-to-end **ETL pipelines in Python** integrating data from **PostgreSQL, MySQL, and Oracle** databases to generate automated business reports and KPI dashboards consumed by senior management weekly
- Implemented **data validation schemas and automated quality checks**, ensuring regulatory compliance and data integrity across **15+ scheduled jobs** running on **AWS Lambda and cron**
- Collaborated with business stakeholders to translate requirements into data models and reporting specifications, demonstrating analytical problem-solving and communication skills essential for change management roles

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
