

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **Java Spring Boot** microservices and **REST APIs** for enterprise applications, ensuring high availability and scalability across production environments serving millions of requests daily.
- Drove reliability and operational excellence by implementing **monitoring and observability solutions** using **Splunk, CloudWatch, and Dynatrace**, reducing mean time to resolution (MTTR) for P1/P2 incidents by proactive diagnostics and SLA management.
- Architected and deployed **data pipelines and ETL workflows** using **Python** for automated reporting and data validation, integrating with **PostgreSQL, MySQL, and Oracle** databases to support downstream analytics and decision-making.
- Accelerated deployment velocity by designing and maintaining **CI/CD pipelines** using **Jenkins and Git**, establishing code review best practices and enabling rapid iteration cycles across Agile/Scrum-driven teams.
- Built containerized solutions with **Docker** and deployed scalable infrastructure on **AWS (EC2, S3, Lambda, CloudWatch)**, demonstrating infrastructure-as-code principles and cloud-native architecture patterns.
- Mentored junior developers on coding standards, system design principles, and troubleshooting methodologies, fostering a collaborative engineering culture and accelerating team capability development.

SKILLS

Languages & Frameworks – Java, Spring Boot, Python, SQL, REST APIs.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Data & Databases – PostgreSQL, MySQL, Oracle, ETL, pandas, NumPy.

DevOps & Tools – Jenkins, Git, CI/CD pipelines, Jira, Confluence.

Monitoring & Reliability – Splunk, Dynatrace, production support, incident response.

Additional Skills – Flask, FastAPI, Angular, React, shell scripting.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Java Application Reliability & Update Delivery (HCL Technologies)

- Engineered production support and monitoring framework for mission-critical **Java/.NET applications**, implementing **Splunk and CloudWatch** observability to track system health, identify bottlenecks, and expedite issue resolution for retail customer releases.
- Developed automated diagnostic and remediation scripts in **Python** to detect, mitigate, and resolve deployment failures and security vulnerabilities in update pipelines, reducing manual intervention time by **40%**.

- Collaborated with cross-functional teams to design resilient architecture patterns for update stack components, ensuring seamless integration of security patches, features, and ML/AI model deployments across validation rings.

Data Engineering & Automation Pipeline (HCL Technologies)

- Architected end-to-end **ETL data pipelines** using **Python, pandas, and NumPy** for discovery, validation, and lifecycle tracking of updates, processing terabytes of telemetry data across distributed systems.
- Optimized **SQL queries** across **PostgreSQL, MySQL, and Oracle** databases, performing schema optimization and data validation to ensure data integrity and reporting accuracy for stakeholder dashboards.
- Automated scheduled reporting and infrastructure monitoring via **shell scripting, cron jobs, and Linux** system administration, enabling real-time visibility into deployment health and customer update adoption metrics.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
