

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and maintained **REST APIs** and microservices using **Java Spring Boot**, supporting enterprise authentication and authorization workflows; reduced API response latency by **18%** through caching optimization
- Engineered **Python**-based data pipelines and **ETL** processes for user identity and access management reporting, processing **500K+** daily records with **pandas** and **NumPy**
- Implemented infrastructure reliability and incident response protocols using **AWS (EC2, Lambda, CloudWatch)** and observability tools (**Splunk, Dynatrace**); managed **P1/P2** incidents with **99.5%** SLA compliance
- Containerized full-stack applications using **Docker** and orchestrated **CI/CD** pipelines via **Jenkins** and **Git**, enabling **20+** deployments weekly with zero production regressions
- Optimized database performance across **PostgreSQL, MySQL, Oracle** through schema design, query tuning, and data validation; authored **50+** complex SQL procedures for identity management workflows
- Contributed to full-stack feature development spanning backend (**Spring Boot REST APIs**), frontend (**Angular**), and deployment automation; collaborated across **Agile/Scrum** teams using **Jira, Confluence**

SKILLS

Languages & Runtimes – Java, Python, SQL, JavaScript.

Backend & API Development – Spring Boot, REST APIs, FastAPI, Flask.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Data & Databases – PostgreSQL, MySQL, Oracle, pandas, NumPy, ETL.

DevOps & Tools – Jenkins, Git, CI/CD, Jira, Confluence, Splunk, Dynatrace.

Frontend – Angular, React.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Identity Access Management Platform (HCL Technologies)

- Built and maintained **Spring Boot microservices** for user provisioning and role-based access control; designed **REST APIs** handling **10K+ daily requests** with sub-100ms latency
- Developed **Python ETL pipelines** to aggregate identity audit logs from **AWS CloudWatch** and export to **PostgreSQL** data warehouse; enabled compliance reporting for **500K+ users**

- Deployed containerized services using **Docker** and **Kubernetes**-style orchestration; established **Jenkins CI/CD** workflows reducing manual deployment time by **65%**

Production Observability & Incident Response Framework (HCL Technologies)

- Architected monitoring dashboards in **Splunk** and **Dynatrace** for real-time health checks on identity services; reduced mean time to detection (MTTD) by **40%**
- Automated incident escalation workflows using **Python** scripting and **Linux** cron jobs; maintained **P1 SLA** compliance at **99.5%** across **15+ critical services**
- Optimized **SQL queries** and database schemas on **Oracle** and **MySQL** to support high-volume identity lookups; improved throughput by **35%**

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
