PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and built **REST APIs** using **Java Spring Boot**, implementing data structures and algorithms to handle complex business logic while maintaining code quality through peer reviews and **Git** branching strategies.
- Owned reliability and observability for enterprise applications by monitoring **AWS** deployments (**EC2, S3, Lambda, CloudWatch**) and triaging P1/P2 incidents using **Splunk** and **Dynatrace**, achieving **99%+ SLA uptime**.
- Automated data pipelines and ETL workflows using **Python** scripts, **pandas**, and **NumPy**, reducing manual reporting overhead by **40%** and enabling self-service analytics for stakeholder teams.
- Delivered features across the full stack—backend services in **Java**, frontend components in **Angular**, and database optimization with **SQL (PostgreSQL, MySQL, Oracle)**—collaborating with cross-functional teams to balance delivery with technical excellence.
- Built and maintained **CI/CD pipelines** using **Jenkins** and **Docker** containerization, reducing deployment cycle time and enabling rapid iteration on software features.
- Demonstrated strong problem-solving by identifying root causes of production issues in distributed systems, proposing solutions in context, and documenting findings in **Jira** and **Confluence** for team knowledge sharing.

SKILLS

Programming Languages – Java, Python, JavaScript, SQL.

Backend & APIs – Spring Boot, REST APIs, Flask, FastAPI.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Databases – PostgreSQL, MySQL, Oracle, SQL optimization.

DevOps & Tools – Jenkins, Git, CI/CD pipelines, Jira, Confluence.

Data Engineering – Python scripting, ETL, data pipelines, pandas, NumPy.

Observability & Monitoring – Splunk, Dynatrace, log analysis, incident response.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Java Microservices & Feature Development (HCL Technologies)

- Developed and maintained multiple **Spring Boot microservices** handling mission-critical business logic, implementing RESTful endpoints with proper error handling and validation.

- Collaborated with product and cross-functional teams to design and deliver new features, balancing R&D; exploration with timely product delivery.
- Conducted code reviews and contributed to architectural discussions, applying software design principles and data structure knowledge to improve system reliability.

Production Reliability & Observability Platform (HCL Technologies)

- Engineered monitoring solutions using **AWS CloudWatch**, **Splunk**, and **Dynatrace** to provide real-time visibility into application health and performance across distributed deployments.
- Led incident response for critical production issues, performing **root cause analysis** using log aggregation and system metrics, then automating fixes via **Python scripts** and **Lambda functions**.
- Built automated alerting and escalation workflows that reduced mean-time-to-resolution (MTTR) and enabled the team to support MongoDB-like deployments at scale.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
