PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **Tier 1 production support** for enterprise applications across **Java/.NET** stack, resolving **P1/P2 incidents** with **SLA adherence** using **Splunk, CloudWatch, and Dynatrace** for monitoring and root-cause analysis.
- Performed **data integrity audits** and **validation checks** using **SQL** across **PostgreSQL, MySQL, and Oracle** databases; identified and resolved data anomalies affecting business processes and reporting accuracy.
- Configured and maintained **ETL pipelines and automated reporting** using **Python** scripting; delivered **ad-hoc reports and dashboards** to HR and business stakeholders, improving decision-making visibility by **40%**.
- Supported **system testing and validation** for releases and patches through **regression testing** on **Java Spring Boot** microservices; maintained comprehensive documentation and standard operating procedures for handover.
- Collaborated across cross-functional teams including **Payroll, HR Services, and technical leadership** to troubleshoot recurring system issues, reduce manual workarounds, and drive continuous improvement initiatives in **Jira/Confluence** workflows.
- Managed **infrastructure and system configuration** through **AWS (EC2, S3, Lambda), Docker containerization, and Jenkins CI/CD pipelines**; demonstrated strong attention to detail in release management and change control processes.

SKILLS

HRIS & Business Systems – System support and troubleshooting, data integrity and compliance validation, payroll process understanding, user acceptance testing, configuration and maintenance.

Data & Reporting – SQL (PostgreSQL, MySQL, Oracle), Python (pandas, NumPy), ad-hoc reporting, dashboard configuration, ETL pipelines, data auditing and validation.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting, log analysis.

Development & CI/CD – Java Spring Boot, REST APIs, Jenkins pipelines, Git, code review processes, Agile/Scrum practices.

Business Tools – Jira, Confluence, Splunk, Dynatrace, ticket management, defect tracking.

Core Competencies – Attention to detail, incident response, cross-functional collaboration, technical and non-technical stakeholder communication, process documentation.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Production Support & Reliability Engineering (HCL Technologies)

- Led **Tier 1 incident response** for enterprise-scale **Java/.NET applications**, achieving **SLA compliance** by investigating root causes using **Splunk, CloudWatch, and Dynatrace** monitoring tools.
- Performed **data validation and integrity checks** using **SQL** to identify anomalies in application logs and transactional data; escalated complex issues with clear documentation and testing evidence.
- Collaborated with Payroll and HR teams to troubleshoot system issues; reduced repeat incidents by **30%** through documentation and process standardization in **Confluence**.

Data Automation & Analytics Pipeline (HCL Technologies)

- Designed and deployed **Python-based ETL pipelines** using **pandas and NumPy** for automated data extraction, transformation, and scheduled reporting across multiple data sources.
- Configured **ad-hoc reports and dashboards** querying **PostgreSQL and Oracle** databases; delivered insights to HR and business stakeholders, improving reporting accuracy and decision-making visibility.
- Supported **regression testing and UAT validation** for system releases using **Jenkins CI/CD** and **Git**; maintained clear test documentation and communicated results to technical and non-technical teams.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
