PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and maintained **reliability engineering solutions** for enterprise applications across **3.5 years**, managing production monitoring via **Splunk, CloudWatch, and Dynatrace**; responded to P1/P2 incidents with **99%+ SLA compliance** through proactive incident response and root cause analysis.
- Developed **Python-based data pipelines and ETL workflows** for automated reporting and data validation, enabling **stakeholders to extract actionable insights** from large-scale datasets; leveraged **pandas and NumPy** for analytical workloads.
- Built and maintained **REST APIs** using **Java Spring Boot** on AWS infrastructure (**EC2, S3, Lambda**), implementing feature work and bug fixes across microservices; contributed to **code reviews** and architectural discussions within Agile teams.
- Executed database operations across **PostgreSQL, MySQL, and Oracle**, performing schema changes, ad-hoc queries, and data validation to support project requirements and operational stability.
- Automated infrastructure and operational tasks using **Linux shell scripting, cron jobs, and Docker containerisation**; integrated automation into **Jenkins CI/CD pipelines** to reduce manual overhead and improve deployment consistency.
- Supported project delivery through detailed **technical documentation, ticketing workflows (Jira), and Agile ceremonies**; demonstrated strong communication and collaborative problem-solving across cross-functional teams and stakeholders.

SKILLS

Programming & Scripting – Python, Java, SQL, Shell scripting.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Backend & APIs – Spring Boot, REST APIs, Flask, FastAPI.

Databases – PostgreSQL, MySQL, Oracle.

DevOps & Tools – Jenkins, Git, CI/CD pipelines, Jira, Confluence.

Monitoring & Analytics – Splunk, Dynatrace, CloudWatch, pandas, NumPy.

Methodologies – Agile/Scrum, technical documentation, incident response, reliability engineering.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Production Support & Monitoring Platform (HCL Technologies)

- Managed real-time monitoring and alerting for enterprise **Java and .NET applications** using **Splunk, CloudWatch, and Dynatrace**, tracking SLAs and enabling rapid incident triage.
- Responded to production incidents with systematic troubleshooting, log analysis, and root cause identification; maintained incident documentation and conducted post-mortems to prevent recurrence.
- Collaborated with development and operations teams to implement monitoring best practices and improve observability across the application portfolio.

Data Pipeline & Automation Engineering (HCL Technologies)

- Designed and deployed **Python ETL pipelines** using **pandas and NumPy** to extract, transform, and load data from multiple sources; automated scheduled reporting to stakeholders.
- Developed **Linux shell scripts and cron-based automation** to streamline operational tasks, reducing manual effort and improving system reliability.
- Integrated automation workflows into **Jenkins CI/CD pipelines**, enabling infrastructure-as-code practices and consistent deployment across environments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
