

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **reliability engineering** solutions for enterprise applications, managing **SLA compliance** and responding to **P1/P2 incidents** using **Splunk, CloudWatch, and Dynatrace** monitoring platforms across production environments
- Built **data pipelines and ETL workflows** using **Python** scripting to automate reporting and validation tasks, supporting data-driven decision-making across multiple teams
- Designed and deployed **REST APIs** using **Java Spring Boot**, contributing to feature development and bug fixes on existing services while maintaining code quality through **Git** branching and peer reviews
- Gained hands-on experience with **AWS infrastructure** including **EC2, S3, Lambda, and CloudWatch**, and containerised applications using **Docker** to support scalable deployments
- Executed **SQL** queries and data validation across **PostgreSQL, MySQL, and Oracle** databases, performing schema analysis and ad-hoc reporting to support operational and analytical requirements
- Completed **MSc in Data Analytics** (Feb 2026) while maintaining full-time employment, demonstrating strong technical foundation in data engineering, statistical analysis, and software development practices aligned with engineering discipline requirements

SKILLS

Programming Languages – Python, Java, SQL.

Web & Backend Development – Spring Boot, REST APIs, Flask, FastAPI.

Data Engineering & Analytics – ETL pipelines, pandas, NumPy, data validation, ad-hoc reporting.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting.

DevOps & Version Control – Jenkins CI/CD pipelines, Git, Jira, Confluence.

Databases – PostgreSQL, MySQL, Oracle, schema analysis.

Monitoring & Reliability – Splunk, Dynatrace, SLA management, incident response.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Reliability & Monitoring (HCL Technologies)

- Managed production support and monitoring for large-scale **Java/.NET applications** using **Splunk, CloudWatch, and Dynatrace**, achieving consistent **SLA compliance** through rapid incident diagnosis and resolution

- Automated routine operational tasks using **Python scripting** and **Linux cron jobs**, reducing manual intervention time and improving team efficiency
- Collaborated with cross-functional teams during **Agile/Scrum ceremonies**, using **Jira** for defect tracking and **Confluence** for documentation, ensuring clear communication of critical issues and resolutions

Data Pipeline & API Development (HCL Technologies)

- Designed and implemented **ETL pipelines** using **Python** to extract, transform, and validate data from multiple sources, supporting scheduled reporting and data-driven insights across the organisation
- Developed **REST APIs** using **Java Spring Boot** for new features and integrations, following best practices in **Git** branching and code review standards
- Leveraged **AWS services (Lambda, S3, EC2)** and **Docker containerisation** to deploy scalable data workflows, reducing infrastructure costs and deployment time

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
