

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and maintained **data pipelines** and **ETL workflows** using **Python** (pandas, NumPy) to process and validate enterprise data across **PostgreSQL**, **MySQL**, and **Oracle** databases, enabling **25%** faster reporting cycles.
- Built **REST APIs** and microservices using **Java Spring Boot** on **AWS** infrastructure (**EC2**, **S3**, **Lambda**), supporting production systems serving enterprise customers with **99.5%** uptime.
- Performed advanced **SQL** analysis and ad-hoc data validation across multiple relational databases, identifying data quality issues and optimizing query performance for analytics workflows.
- Deployed and monitored applications using **Docker** containerisation and **Jenkins** CI/CD pipelines, reducing deployment time and improving reliability across development and production environments.
- Conducted production observability and reliability engineering using **Splunk**, **CloudWatch**, and **Dynatrace**, resolving P1/P2 incidents and managing SLAs for critical enterprise systems.
- Completed **MSc in Data Analytics** from National College of Ireland, developing expertise in statistical modelling, data visualisation, and machine learning methodologies applicable to healthcare and insurance analytics.

SKILLS

Programming & Scripting – Python, Java, SQL, Bash/Shell scripting.

Data Engineering & Analytics – ETL pipelines, data validation, pandas, NumPy, Splunk, data warehousing.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Backend Development – Spring Boot, REST APIs, microservices architecture.

Databases – PostgreSQL, MySQL, Oracle, schema design, query optimization.

Monitoring & Reliability – Dynatrace, CloudWatch, incident response, SLA management.

Tools & Platforms – Jira, Confluence, Linux, Agile/Scrum.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Data Pipeline & Automation (HCL Technologies)

- Architected end-to-end **Python-based ETL pipeline** processing millions of records daily from multiple data sources into centralized **PostgreSQL** data warehouse.
- Implemented **automated reporting workflows** using **pandas** and scheduled cron jobs, reducing manual data compilation effort by **40%** and improving reporting accuracy.

- Developed **SQL** scripts for data validation and transformation, identifying and resolving data quality issues across enterprise systems.

Microservices Deployment & Observability (HCL Technologies)

- Deployed **Java Spring Boot** microservices on **AWS** using **Docker** containerisation and **Jenkins** CI/CD pipelines, improving deployment frequency and reducing operational overhead.
- Established comprehensive monitoring using **Splunk**, **CloudWatch**, and **Dynatrace**, enabling proactive incident detection and reducing mean-time-to-resolution by **30%**.
- Managed production support for critical enterprise applications, responding to P1/P2 incidents and maintaining **99.5%** system availability through reliability engineering best practices.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
