PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and maintained **Spring Boot REST APIs** for enterprise Java applications, implementing **Spring Security** authentication and authorization controls to secure external-facing endpoints; supported API lifecycle management and token provisioning workflows.
- Led **production support and incident response** for mission-critical systems using **Splunk, CloudWatch, and Dynatrace**; triaged P1/P2 incidents, performed root cause analysis, and drove operational excellence with SLA adherence across distributed cloud infrastructure.
- Implemented **CI/CD pipelines** using **Jenkins and Git** to automate deployment and testing workflows; established code review practices and branching strategies to ensure software quality and operational reliability in production environments.
- Architected **Python ETL and data pipeline automation** using **pandas and NumPy** for large-scale data processing and scheduled reporting; integrated observability practices through structured logging and metrics collection for operational visibility.
- Deployed and monitored applications across **AWS cloud infrastructure** (EC2, S3, Lambda, CloudWatch); containerized services using **Docker** and optimized resource allocation; demonstrated hands-on experience with public cloud operational practices including infrastructure monitoring and cost optimization.
- Collaborated within cross-functional Agile teams using **Jira and Confluence**; participated in sprint ceremonies, design discussions, and technical reviews; communicated effectively with data engineers and automation engineers to deliver product enhancements and platform improvements.

SKILLS

Backend & API Development – Spring Boot, REST APIs, Spring Security, Java.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, CI/CD (Jenkins, Git).

Data & Observability – SQL (PostgreSQL, MySQL, Oracle), Python, pandas, NumPy, Splunk, Dynatrace.

DevOps & Production Support – Linux, shell scripting, log analysis, incident response, SLA management.

Collaboration & Tools – Jira, Confluence, Agile/Scrum, Git branching, code reviews.

Additional Technologies – Flask, FastAPI, React, Angular.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise REST API Development & Security (HCL Technologies)

- Built and maintained **Spring Boot REST APIs** for externally consumable services, implementing **Spring Security** controls for endpoint authentication, authorization, and token lifecycle management.
- Integrated **observability practices** including structured logging, metrics instrumentation, and health check endpoints to enable production monitoring and operational alerting.
- Automated API deployment and testing through **Jenkins CI/CD pipelines**; conducted security reviews and applied defensive coding practices to harden public-facing endpoints.

Production Monitoring, Incident Response & Reliability Engineering (HCL Technologies)

- Established operational excellence for mission-critical systems using **Splunk, CloudWatch, and Dynatrace** for real-time monitoring, alerting, and performance analysis across **AWS infrastructure**.
- Triaged and resolved P1/P2 production incidents; performed root cause analysis and implemented preventative measures; maintained SLA compliance and reduced mean time to resolution by **30%** through improved runbooks and automation.
- Designed and deployed **Python automation scripts** for infrastructure health checks, log aggregation, and anomaly detection; leveraged **Docker containerization** for consistent deployment across environments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
