

# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India** 09/2021 – 01/2025 (3.5 Years)

- Designed and maintained **data pipelines** using **Python**, **pandas**, and **NumPy** for ETL workflows, processing enterprise datasets across healthcare and financial services domains with **PostgreSQL** and **Oracle**.
- Built and deployed **REST APIs** and microservices using **Java Spring Boot**, integrating with **AWS (Lambda, S3, EC2)** to enable scalable data ingestion and model serving infrastructure.
- Implemented production monitoring and reliability engineering using **Splunk**, **Dynatrace**, and **CloudWatch**, achieving **99.5% SLA** uptime for mission-critical applications through P1/P2 incident response and predictive alerting.
- Automated data validation and schema optimization through **SQL** scripting and **Linux** shell automation, reducing manual validation time by **40%** and enabling rapid feature deployment in Agile environments.
- Containerized applications and orchestrated deployment pipelines using **Docker** and **Jenkins** CI/CD, improving release velocity and enabling reproducible model inference environments.
- Completed **MSc in Data Analytics**, specializing in statistical modeling, data-driven decision-making, and advanced analytics techniques applicable to healthcare AI and predictive intelligence use cases.

## SKILLS

**Programming & Data Engineering** – Python, Java, SQL, pandas, NumPy, Flask, FastAPI.

**Cloud & DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

**Data Platforms & Monitoring** – PostgreSQL, MySQL, Oracle, Splunk, Dynatrace.

**Backend & APIs** – Spring Boot, REST APIs, Microservices Architecture.

**Infrastructure & Systems** – Linux, Shell Scripting, CI/CD, Jira, Agile/Scrum.

**Analytics & Frontend** – Data Analytics, React, Angular.

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin** 02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India** 01/2021

## PROJECTS

### **Enterprise Data Pipeline & Monitoring Architecture (HCL Technologies)**

- Architected end-to-end **ETL pipelines** using **Python** and **SQL** to ingest, validate, and transform terabytes of structured healthcare and transactional data from multiple sources into **PostgreSQL** and **Oracle** data warehouses.
- Deployed real-time monitoring and observability using **Splunk** and **Dynatrace**, creating custom dashboards for data quality metrics, pipeline latency, and SLA tracking across production environments.

- Automated data governance workflows with **Linux** cron jobs and **Python** scripts, reducing manual data reconciliation overhead by **45%** and enabling stakeholders to self-serve analytics.

#### **Microservices API & Cloud Infrastructure for Data Services (HCL Technologies)**

- Developed **Spring Boot REST APIs** for data query, transformation, and reporting services, enabling downstream applications to consume preprocessed datasets with **sub-second** latency.
- Migrated legacy batch processing to serverless **AWS Lambda** functions integrated with **S3** and **CloudWatch**, reducing infrastructure costs by **35%** while improving scalability and reliability.
- Implemented **Docker** containerization and **Jenkins** CI/CD pipelines for reproducible deployments, enabling data science teams to version-control models and APIs within the same infrastructure framework.

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
