+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Designed and maintained **data pipelines** and **ETL workflows** using **Python**, **SQL**, and **AWS Lambda** to process enterprise data at scale; automated scheduled reporting across **PostgreSQL**, **MySQL**, and **Oracle** databases, reducing manual effort by **40%**.
- Built and optimized **REST APIs** and microservices using **Java Spring Boot**, supporting downstream analytics and ML pipelines; implemented data validation and schema changes to ensure data quality for analytics workflows.
- Established reliability engineering practices for production data systems using **Splunk**, **CloudWatch**, and **Dynatrace**; managed **P1/P2 incidents** with **99.5% SLA** uptime, ensuring uninterrupted data availability for analytics teams.
- Containerized data processing applications using **Docker** and orchestrated deployments via **Jenkins CI/CD pipelines** and **Git**; reduced deployment time by **35%** and improved environment consistency across development, staging, and production.
- Performed advanced data analysis and feature engineering using **pandas**, **NumPy**, and **SQL** to support ML model development; created ad-hoc analytical queries and data validation scripts to uncover insights from terabyte-scale datasets.
- Collaborated with cross-functional teams in Agile/Scrum environments using **Jira** and **Confluence**; participated in code reviews and architectural discussions to design scalable, maintainable data infrastructure.

SKILLS

Data Engineering & ETL – Python, SQL, data pipelines, ETL, Apache Spark (basics), pandas, NumPy.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting.

Backend Development – Java, Spring Boot, REST APIs, Flask, FastAPI.

Databases – PostgreSQL, MySQL, Oracle, schema design, data modeling.

DevOps & Reliability – Jenkins, Git, CI/CD pipelines, Splunk, Dynatrace, SLA management.

Tools & Platforms – Jira, Confluence, Agile/Scrum, log analysis.

Data Analytics & Visualization – data analysis, statistical querying, reporting automation.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Data Pipeline & Monitoring Platform (HCL Technologies)

- Architected end-to-end **data pipeline** using **Python** scripts and **AWS Lambda** to ingest, transform, and load data from multiple enterprise sources into **PostgreSQL** and **S3** data lakes.
- Implemented real-time monitoring and alerting for data quality using **CloudWatch** and **Splunk**, reducing data anomaly detection time by **50%** and enabling faster root-cause analysis.
- Containerized pipeline components using **Docker** and automated deployments through **Jenkins CI/CD**, enabling **20+ daily releases** with zero downtime and consistent performance across environments.

Analytics-Ready Microservices API Layer (HCL Technologies)

- Designed and developed **REST APIs** using **Java Spring Boot** to expose cleaned, aggregated datasets for downstream analytics and ML model consumption; optimized queries using **SQL** indexing strategies.
- Performed **ETL transformations** and **data validation** using **pandas** and **NumPy** to ensure high-quality, analytics-ready datasets; created data schema documentation in **Confluence** for data governance.
- Managed production reliability with **99.5% SLA uptime** through **Dynatrace** monitoring, incident response protocols, and performance tuning; reduced API latency by **30%** to support real-time analytics workloads.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
