+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed, built and maintained **Spring Boot REST APIs** serving enterprise Java applications in production, implementing **Spring Security** for endpoint protection and token lifecycle management with **25+ API enhancements** deployed to AWS
- Led **production support and operational excellence** across mission-critical systems using **Splunk, CloudWatch, and Dynatrace** for observability; managed **P1/P2 incident response** with structured triage and root cause analysis, achieving **98% SLA compliance**
- Engineered **Python data pipelines and ETL workflows** for large-scale historical datasets using **pandas and NumPy**; automated scheduled reporting and data validation across **PostgreSQL, MySQL, and Oracle** databases
- Deployed and maintained containerized microservices using **Docker and AWS (EC2, S3, Lambda)**; implemented **CI/CD pipelines with Jenkins and Git** branching strategies, enabling rapid and reliable feature delivery
- Integrated observability and automated monitoring controls into operations processes; partnered with multidisciplinary teams—Data Engineers, Software Engineers, and DevOps—within Agile/Scrum ceremonies to deliver brownfield product enhancements
- Completed **MSc in Data Analytics** alongside production engineering role, combining domain expertise in data engineering, analytics, and cloud architecture; earned **IELTS Academic Band 7** and full-stack certifications in **Java Spring Boot, Angular, and Web Development**

SKILLS

Backend & API Development – Spring Boot, REST APIs, Spring Security, Java, FastAPI, Flask.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD pipelines.

Data Engineering & Scripting – Python, SQL (PostgreSQL, MySQL, Oracle), pandas, NumPy, ETL, shell scripting.

Observability & Reliability – Splunk, Dynatrace, CloudWatch, production monitoring, incident triage.

Collaboration & Agile – Jira, Confluence, Scrum ceremonies, code reviews, stakeholder communication.

Frontend & Full-Stack – Angular, React, Web Development.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise REST API Platform & Security Enhancement (HCL Technologies)

- Architected and deployed multiple **Spring Boot REST APIs** for externally consumable endpoints, implementing robust **Spring Security authentication and authorization controls** to protect sensitive enterprise data
- Integrated **observability practices** by embedding **CloudWatch and Splunk monitoring** into API operations; established automated alerting for anomalies and implemented structured **incident response workflows**
- Engineered **token lifecycle management** features enabling self-serve client onboarding; collaborated with cross-functional teams to define API contracts and security policies, reducing onboarding time by **40%**

Large-Scale Data Pipeline & BI Reporting System (HCL Technologies)

- Built **Python ETL pipelines** processing large-scale historical datasets from multiple sources; optimized **SQL queries** on **PostgreSQL and Oracle** databases, reducing query execution time by **35%**
- Automated scheduled reporting workflows using **Python scripting, cron jobs, and AWS Lambda**; deployed containerized batch jobs with **Docker** to AWS, enabling real-time data availability for BI dashboards
- Implemented comprehensive **CI/CD automation** with **Jenkins pipelines and Git workflows**; partnered with Data Engineers to validate data quality and ensure **99.5% pipeline reliability** in production

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
