PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Monitored and maintained operational health of enterprise applications using **Splunk, CloudWatch, and Dynatrace**, managing SLAs and responding to P1/P2 incidents with accuracy and timeliness—directly supporting reliable hardware and system availability across distributed infrastructure.
- Performed data validation, system transactions, and created operational reports using **SQL (PostgreSQL, MySQL, Oracle)** and Python scripts, ensuring inventory accuracy and supporting daily operations inquiries across enterprise systems.
- Collaborated with cross-functional teams to identify process improvements and cost savings opportunities, documenting procedures in **Confluence** and tracking implementation via **Jira** to meet evolving business requirements.
- Configured and deployed applications using **Docker** containerization and **AWS infrastructure (EC2, S3, Lambda)**, demonstrating technical proficiency with hardware-adjacent systems and cloud-based operational tools.
- Executed **CI/CD pipelines via Jenkins** and managed **Git** version control with peer code reviews, reinforcing attention to detail and quality assurance in rapid deployment cycles.
- Communicated operational status, performance trends, and actionable recommendations to management stakeholders, translating technical insights into business-focused reporting and driving productivity improvements.

SKILLS

Operations & Systems – Hardware monitoring, inventory management, operational reporting, system transactions, process improvement.

Technical Tools – Oracle applications, Splunk, Dynatrace, CloudWatch, Jenkins, Jira, Confluence.

Programming & Scripting – Python, Java Spring Boot, SQL (PostgreSQL, MySQL, Oracle), shell scripting.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Git.

Data & Analysis – Data validation, ETL pipelines, operational analytics, pandas, NumPy.

Professional – Attention to detail, multitasking, customer service mindset, analytical skills, communication.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Production Support (HCL Technologies)

- Managed **SLA-driven incident response** for critical Java and .NET applications, reducing P1 resolution time through systematic **Splunk** log analysis and troubleshooting.
- Maintained **system data accuracy** by performing regular validation, schema updates, and data quality checks across **PostgreSQL, MySQL, and Oracle** databases.
- Collaborated with development teams to document operational procedures, identify hardware and infrastructure bottlenecks, and recommend improvements to enhance reliability and performance.

Automation & Reporting Pipeline Development (HCL Technologies)

- Designed and deployed **Python-based ETL scripts** to automate daily data pipeline operations and scheduled reporting, eliminating manual effort and improving operational efficiency.
- Built **REST APIs using Spring Boot** to support internal operations workflows, ensuring seamless data flow and system integration across enterprise platforms.
- Implemented **Jenkins CI/CD pipelines** for automated deployment of operational tools, with **Git** version control and code review processes to maintain quality and traceability in production environments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
