

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed production support and incident response for enterprise applications using **Splunk, CloudWatch, and Dynatrace**, achieving **SLA compliance** through rapid P1/P2 triage, root-cause analysis, and detailed incident documentation aligned with ITIL principles.
- Designed and implemented **Python automation scripts** for data pipelines, ETL workflows, and scheduled reporting, reducing manual operational overhead and improving data validation accuracy across distributed systems.
- Developed and maintained **REST APIs and microservices** using **Java Spring Boot**, applying secure coding practices and implementing role-based access controls to align with Zero Trust architecture principles.
- Provisioned and secured **AWS cloud infrastructure (EC2, S3, Lambda, CloudWatch)**, implementing network security controls, encryption standards, and monitoring best practices for compliance and threat detection.
- Automated CI/CD workflows using **Jenkins pipelines and Git**, enforcing code reviews and change management discipline; containerised applications with **Docker** to standardise deployment and reduce configuration drift.
- Performed system administration on **Linux** environments, executing log analysis, shell scripting, and security investigations to identify anomalies and support incident resolution in production systems.

SKILLS

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux administration, network security.

Security & Monitoring – Splunk, Dynatrace, CloudWatch, incident response, threat investigation, ITIL incident management.

Application Development – Java Spring Boot, REST APIs, Python, SQL (PostgreSQL, MySQL, Oracle).

DevOps & CI/CD – Jenkins, Git, code review, change management, containerisation.

Data & Scripting – Python, SQL, ETL, pandas, NumPy, shell scripting, automation.

Soft Skills & Process – ITIL principles, Agile/Scrum, Jira, Confluence, technical documentation, cross-team collaboration.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Reliability & Security Initiative (HCL Technologies)

- Established **production monitoring and alerting framework** using **Splunk and Dynatrace**, reducing mean-time-to-detection (MTTD) for security and performance incidents by enabling proactive threat evaluation and rapid incident response.
- Implemented automated **data validation and ETL pipelines** in **Python** to ensure data integrity across enterprise databases; created **SQL**-based audit scripts for compliance tracking and anomaly detection.
- Collaborated with security and infrastructure teams to document incident runbooks and remediation procedures, strengthening Knowledge Management and alignment with ITIL Service Request and Problem Management practices.

Cloud Infrastructure Deployment & Secure API Development (HCL Technologies)

- Architected and deployed microservices on **AWS (EC2, S3, Lambda)** with **CloudWatch** monitoring; implemented encryption, network segmentation, and role-based access controls to enforce Zero Trust principles.
- Developed **REST APIs using Spring Boot** with security-first design, integrating authentication and authorisation layers to support identity governance and access management best practices.
- Automated application deployment and infrastructure provisioning using **Docker** and **Jenkins CI/CD pipelines**, reducing deployment time by standardising configurations and enabling repeatable, auditable change management workflows.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
