

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and maintained **production-grade monitoring** for enterprise Java/.NET applications using **Splunk, CloudWatch, and Dynatrace**, achieving **99.5% SLA uptime** through proactive P1/P2 incident response and root-cause analysis in Linux environments.
- Developed **Python automation scripts** for data pipelines, ETL workflows, and scheduled reporting; leveraged **pandas and NumPy** for data validation and transformation across **PostgreSQL, MySQL, and Oracle** databases.
- Built and maintained **REST APIs** using **Java Spring Boot** on **AWS infrastructure (EC2, S3, Lambda)**; containerized applications with **Docker** and orchestrated deployments through **Jenkins CI/CD pipelines** with Git branching and code reviews.
- Demonstrated strong reliability engineering mindset: wrote shell scripts for log analysis and system diagnostics, managed cron jobs for automated tasks, and debugged issues across constrained production environments—skills directly applicable to embedded systems testing and provisioning.
- Completed **MSc in Data Analytics** (National College of Ireland, Dublin) covering data engineering, statistical analysis, and cloud-based data workflows; strengthened full-stack capabilities through certifications in **Full Stack Java Spring Boot & Angular** and web development fundamentals.
- Proficient in **Linux** command-line operations, cross-platform development practices, and **Git version control**; comfortable learning new hardware interfaces and communication protocols through hands-on experimentation and technical documentation.

SKILLS

Languages & Core Development – Python, Java, C++ (basics), SQL, Shell Scripting.

Embedded & IoT Fundamentals – Docker, AWS (EC2, S3, Lambda, CloudWatch), Linux, REST APIs.

Data Engineering & Automation – Python (pandas, NumPy), ETL, PostgreSQL, MySQL, Oracle, Flask, FastAPI.

DevOps & Infrastructure – Jenkins, Git, Jira, CI/CD pipelines, Agile/Scrum.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, Log Analysis.

Frameworks & Tools – Spring Boot, Angular, React.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Production Monitoring & Incident Response Platform (HCL Technologies)

- Engineered **Splunk and CloudWatch dashboards** for real-time monitoring of multi-tier enterprise applications, reducing mean-time-to-detection (MTTD) by **40%** and enabling rapid incident classification.
- Automated alert aggregation and escalation workflows using **Python scripts** and **shell automation**, eliminating manual noise and improving P1 response time to **under 15 minutes**.
- Collaborated with cross-functional teams (platform, QA, infrastructure) to troubleshoot connectivity and data flow issues, demonstrating reliability engineering and systems thinking applicable to device-cloud integration.

Data Pipeline & ETL Automation (HCL Technologies)

- Designed and deployed **Python-based ETL pipelines** using **pandas and NumPy** to process and validate enterprise data from multiple **SQL databases (PostgreSQL, MySQL, Oracle)**; scheduled execution via **cron jobs** on **Linux servers**.
- Optimized data extraction and transformation logic to handle **10M+ daily records**, improving pipeline runtime by **35%** and reducing resource consumption in constrained environments.
- Integrated pipelines with **AWS Lambda and S3** for cloud-based reporting and archival; wrote comprehensive logging and error-handling mechanisms for operational visibility and maintainability.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
