+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Conducted detailed **data analysis and validation** on enterprise application performance using **Splunk, CloudWatch, and Dynatrace**; identified root causes of system discrepancies and anomalies through **SQL queries** and log analysis, reducing incident resolution time by **30%**
- Developed **Python automation scripts** for data pipelines and **ETL processes**, including account-level consumption tracking and tariff reconciliation reports; delivered **scheduled reporting** to stakeholders with **100% SLA compliance**
- Managed **production support and incident response** for mission-critical systems, triaging **P1/P2 issues**, liaising with technical teams, and communicating status to customers—directly applicable to customer account management and escalation handling
- Demonstrated strong **numerical and analytical problem-solving** through **schema validation, data reconciliation**, and **ad-hoc SQL queries** across **PostgreSQL, MySQL, and Oracle** databases to ensure data accuracy and integrity
- Worked in **Agile/Scrum environments** using **Jira and Confluence** for ticketing and defect tracking; managed competing priorities across multiple systems and coordinated across teams—essential skills for Revenue Protection team collaboration and BAU delivery
- Completed **MSc in Data Analytics** with advanced statistical and analytical training; combined with **BE in Computer Science**, providing strong technical foundation and proven ability to master complex business processes and systems

SKILLS

Data Analysis & Reporting – SQL (PostgreSQL, MySQL, Oracle), data validation, consumption analysis, reconciliation, Splunk, Dynatrace, pandas.

Automation & Technical Skills – Python scripting, ETL pipelines, scheduled reporting, Linux, shell scripting, Git.

Systems & Cloud – AWS (EC2, S3, Lambda, CloudWatch), Docker, CI/CD (Jenkins).

Business Process & Ticketing – Jira, Confluence, Agile/Scrum, SLA management, incident response, root cause analysis.

Soft Skills – Problem-solving, self-directed work, cross-functional communication, customer liaison, attention to detail.

Qualifications – MSc Data Analytics, Bachelor of Engineering (Computer Science), IELTS Band 7, Full Stack Java Spring Boot certification.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Application Monitoring & Reliability (HCL Technologies)

- Designed and maintained **production support dashboards** using **Splunk and Dynatrace** to monitor system health, detect consumption anomalies, and alert on critical discrepancies in real time
- Authored **Python automation scripts** to validate charging accuracy against system meter records; identified root causes of discrepancies through detailed **log analysis and SQL queries**, directly preventing revenue leakage
- Collaborated with network operations and customer service teams to investigate technical issues, document findings, and implement corrective actions—mirroring Revenue Protection's coordination model

Data Pipeline & Reconciliation Automation (HCL Technologies)

- Built **ETL pipelines in Python** to extract, validate, and reconcile account-level data across multiple systems; delivered **weekly reconciliation reports** to stakeholders on schedule with **zero data integrity issues**
- Performed **schema validation and tariff audits** using **SQL** to ensure billing systems charged in line with agreed terms; escalated **exceptions and complex customer queries** to management with clear root cause analysis
- Monitored pipeline performance and data quality metrics; provided timely escalation and remediation guidance to junior team members—supporting Revenue Protection's Tier 1 guidance and team upskilling objectives

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
