PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Led **production support and system monitoring** of enterprise Java/.NET applications using **Splunk, CloudWatch, and Dynatrace**, managing SLAs and responding to P1/P2 incidents to maintain **99.5%+ uptime** across critical manufacturing systems.
- Designed and executed **data validation pipelines** using **Python, SQL (PostgreSQL, MySQL, Oracle)**, and **ETL workflows** to ensure data integrity and accuracy in enterprise databases, supporting compliance audits and regulatory reporting.
- Developed **REST APIs and backend services** using **Java Spring Boot** for system integration and process automation, following best practices in code quality, version control (**Git**), and **CI/CD deployment via Jenkins**.
- Automated operational tasks and system maintenance through **shell scripting, Python automation**, and **cron-based scheduled jobs**, reducing manual intervention by **40%** and improving system reliability.
- Managed **change control, deviation tracking, and defect remediation** processes using **Jira and Confluence**, ensuring transparent documentation and traceability across Agile/Scrum workflows in a regulated environment.
- Deployed and containerised applications on **AWS infrastructure (EC2, S3, Lambda, CloudWatch)** using **Docker**, ensuring scalability, security, and compliance with enterprise standards.

SKILLS

Computer System Validation & Compliance – Production system monitoring, SLA management, GxP-regulated environment support, change control, deviation management, audit readiness.

Data Integrity & Quality Assurance – SQL validation, data pipeline verification, ETL auditing, schema change management, regulatory reporting.

Backend & API Development – Java, Spring Boot, REST APIs, microservices, code review, Git workflows.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, containerisation, CI/CD pipelines, Jenkins.

Scripting & Automation – Python, shell scripting, cron jobs, Linux administration, log analysis.

QMS & Documentation – Jira, Confluence, Agile/Scrum, ticketing, defect tracking, process documentation.

Databases – PostgreSQL, MySQL, Oracle, ad-hoc queries, performance optimization.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise Application Reliability & Compliance Monitoring (HCL Technologies)

- Established comprehensive **production monitoring framework** using **Splunk and Dynatrace** for real-time system health tracking and incident detection across Java/.NET services.
- Implemented **SLA-driven incident response protocols**, resolving P1/P2 issues within defined windows and maintaining audit trails for regulatory compliance and internal inspections.
- Automated performance reporting and compliance metrics generation using **Python scripting**, enabling stakeholders to assess system validation status and regulatory readiness on demand.

Data Pipeline & ETL Validation System (HCL Technologies)

- Engineered **Python-based ETL pipelines** with data validation checkpoints, leveraging **pandas and SQL** to ensure data integrity and traceability across **PostgreSQL and Oracle** databases.
- Developed **automated data quality checks** as part of scheduled batch processes, flagging anomalies and generating audit reports to support compliance documentation and regulatory submissions.
- Integrated validation workflows into **Jenkins CI/CD pipelines**, enabling continuous verification of data transformations and reducing manual validation effort by enabling **Docker-containerised deployments** across environments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
