PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed **production support and monitoring** of enterprise applications using **Splunk, CloudWatch, and Dynatrace**, ensuring SLA compliance and resolving **P1/P2 incidents** with minimal supervision; proactively identified system issues impacting delivery timelines.
- Designed and maintained **critical databases and data pipelines** using **Python, SQL (PostgreSQL, MySQL, Oracle)**, and **ETL processes**; prepared automated reports and analyses to support KPIs and business decision-making.
- Collaborated across **cross-functional teams** including internal stakeholders and external partners to resolve documentation errors, eliminate delays, and drive **continuous improvement initiatives** in supply chain and operations.
- Developed **Java Spring Boot REST APIs** and automated workflows using **Python scripting** for scheduling, data validation, and ad-hoc operational requests; deployed solutions on **AWS (EC2, S3, Lambda)** with **Docker containerization**.
- Implemented and managed **CI/CD pipelines using Jenkins and Git**; conducted code reviews and maintained documentation in **Jira and Confluence** to support Agile workflows and operational transparency.
- Demonstrated strong **written and oral communication** in multicultural environments; liaised with international teams on technical issues, compliance requirements, and schedule adherence through active listening and resourceful problem-solving.

SKILLS

Data Management & Analysis – SQL (PostgreSQL, MySQL, Oracle), Python (pandas, NumPy), ETL/Data Pipelines, ad-hoc reporting.

Business Systems & Tools – Excel, Jira, Confluence, SharePoint, Git, Splunk, CloudWatch, Dynatrace.

Software Development – Java Spring Boot, REST APIs, Python (Flask, FastAPI), Docker.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Linux, shell scripting, CI/CD (Jenkins).

Core Competencies – Production support, incident response, cross-functional collaboration, SLA management, minimal supervision, continuous improvement.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Monitoring & Incident Response (HCL Technologies)

- Managed real-time monitoring of mission-critical Java/.NET applications across production environments using **Splunk, CloudWatch, and Dynatrace**, ensuring uptime and SLA adherence.
- Responded to P1 and P2 incidents with minimal supervision, conducting root cause analysis and implementing fixes to prevent recurrence and reduce downtime.
- Collaborated with development and infrastructure teams to resolve production issues impacting delivery schedules and material shipment timelines.

Data Pipeline & Reporting Automation (HCL Technologies)

- Designed and deployed **Python-based ETL pipelines** to extract, transform, and load data from multiple sources into **PostgreSQL and MySQL databases**, supporting automated reporting and KPI tracking.
- Created scheduled **Python scripts** and **cron jobs** to generate daily and weekly reports; maintained data accuracy and integrity through rigorous validation and schema management.
- Developed **Java Spring Boot microservices** and **REST APIs** to enable real-time data access for stakeholders; deployed on **AWS Lambda** for scalable, serverless execution.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
