+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Led **production support and incident response** for enterprise applications using **Splunk, CloudWatch, and Dynatrace**, managing **P1/P2 SLAs** and ensuring **99%+ system uptime** in cGMP-adjacent regulated environments
- Designed and executed **data validation pipelines** using **Python, SQL (PostgreSQL, MySQL, Oracle)**, and **ETL automation** to support compliance reporting and root cause analysis investigations across multiple data sources
- Implemented **environmental monitoring and compliance workflows** by automating alert detection and corrective action tracking through **Jenkins CI/CD pipelines** and **Jira ticketing**, reducing manual review time by **30%**
- Developed **REST APIs and microservices** using **Java Spring Boot** to support real-time data collection, analysis, and reporting for quality control operations and regulatory submissions
- Conducted **infrastructure validation and testing** using **AWS (EC2, Lambda, CloudWatch)** and **Docker containerisation**, ensuring controlled environment specifications and change control documentation
- Mentored junior engineers on **process improvements and standard operating procedures**, reviewed technical documentation and validation protocols, and presented performance metrics and trend analysis to stakeholders in Agile ceremonies

SKILLS

Data Analysis & Reporting – SQL (PostgreSQL, MySQL, Oracle), Python (pandas, NumPy), ad-hoc queries, data validation, trend analysis.

Quality Assurance & Compliance – cGMP regulatory standards, SLA management, incident investigation, root cause analysis, corrective action tracking.

Software Development – Java Spring Boot, REST APIs, Python scripting, Flask, FastAPI.

Infrastructure & Automation – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins CI/CD, Git, Linux, shell scripting.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, alert configuration, performance metrics.

Team & Process Management – Jira, Confluence, Agile/Scrum, mentoring, process documentation, SOP review.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Production Support & Reliability Program (HCL Technologies)

- Managed **24/7 production monitoring** using **Splunk and Dynatrace** for mission-critical Java/.NET applications in regulated environments, achieving **99%+ uptime SLA** through proactive alert management and **P1/P2 incident response**
- Automated root cause analysis workflows by developing **Python scripts** and **SQL queries** to correlate logs, metrics, and configuration data, reducing mean time to resolution (MTTR) by **25%**
- Designed **compliance dashboards** and regulatory reports using **CloudWatch** and **Splunk**, ensuring all operational metrics aligned with cGMP audit requirements and internal SOP standards

Data Pipeline & Environmental Monitoring Automation (HCL Technologies)

- Built end-to-end **ETL pipelines** using **Python, SQL, and scheduled jobs** to ingest, validate, and transform raw material and in-process control data from multiple systems into compliance-ready datasets
- Implemented **automated alert and action limit investigations** using **Jenkins CI/CD pipelines** and **Jira workflow automation**, reducing manual deviation processing time by **30%** and improving change control turnaround
- Deployed **AWS Lambda functions** for real-time data validation and **Docker-containerised services** for monitoring utility qualification parameters, enabling rapid detection of out-of-specification conditions

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
